As a follow up to the March 2nd Principals' meeting on the President's Infrastructure Initiative, we will be gathering in EEOB 472 at 2:00 p.m. on March 15th. The purpose of the meeting is to lay out in more detail how we plan on organizing this effort and the data gathering and policy coordination it will entail. This will be the first of many meetings as we try to pull together an integrated approach to infrastructure.

Attached please find an agenda for the meeting and list of participants (if you would like to add a participant, please contact Austin first as space is limited), the memo and presentation handed out at the Principals' meeting on March 2nd, some background on FPISC, and an Executive Order on high-priority projects.

In terms of your involvement, we would like to hear any ideas you have that fall into 6 categories outlined in the attached memo. This meeting will not be long enough for us to discuss any ideas in depth.

AMERICAN OVERSIGHT

Instead, I would prefer to have you just give the group bullet points on potential avenues of exploration; so we are able to develop some synergy as a group.

If you have any questions, please reach out to Austin at austin_m_ramirez@(b) (6)

Thank you guys.

I've CC'd Samantha Dravis on this. She's the associate administrator for policy and handling much of the RFS issues in her office. Soon joining your team is Mandy Gunasekara who will also work in a number of air issues.

Ryan – I'm reaching out on behalf of my boss, Congressman Garret Graves (LA-6). He would like to get on the phone with the appropriate person at EPA to discuss the attached letter we sent to Administrator Pruitt on March 7. Local refiners, oil marketers, convenience stores and gas stations are heading into the summer months facing a mandate to lower the Reid Vapor Pressure (RVP) of gasoline. For the past 2 years the industry has been required to implement the lower RVP by the state DEQ. It can however be waived, and has been done so in several areas around the country (info below). EPA can provide the flexibility for the state to eliminate the requirement, and that is our ask. As summer is fast approaching, timing is of the essence. I have cc'd our scheduler who can provide the Congressman's cellphone number and otherwise handle logistics of setting up a quick call. Thank you very much for your help on this.

Ian

BACKGROUND

* Today, Reid Vapor Pressure (RVP) limits provide minimal benefit to ozone air quality because of improvements in vehicular emission equipment and the inability to blend ethanol lower than 8.8 RVP. These combined factors result in very few to no measurable benefits for ozone reduction.

* Producing different RVP grades creates higher production costs for the refiner and these costs are passed on to the consumer (up to $0.10/gallon).

* Having different standards of RVP requires additional inspection and enforcement efforts.

* RVP limits will not likely be considered an effective method to reduce ozone in the future, since the EPA recently strengthened the National Ambient Air Quality Standards (NAAQS) to 70ppb.

* The 7.8 RVP requirement has been eliminated in other areas such as: Denver and Boulder, CO; Grant Parish, LA; Florida; Raleigh, Durham, and Chapel Hill, NC; Greensboro, NC; Winston and Salem, NC; High Point area in North Carolina; Jefferson and Shelby counties (Birmingham area) in Alabama; and Mecklenburg and Gaston counties in North Carolina. The EPA is currently considering eliminating the RVP requirement in Pittsburgh, PA, a city very similar to Baton Rouge, LA.

Ryan,

Coming to you first, and wanted to see if you have time to meet in the next week or so or if you could point us in the right direction for a meeting at EPA, especially on RCRA.

AMERICAN OVERSIGHT

Our client Bloom Energy, a fuel cell manufacturer that runs its fuel cells on natural gas, has tried to work through EPA regulations and we would like to come in and discuss. Here is the short version: Bloom uses a de-sulfurization unit to extract sulfur from natural gas as it enters the fuel cell stacks. In doing so, the units capture a trace amount of benzene, a regulated chemical.

We'd love to talk to you or someone on your staff about this and can bring their General Counsel either next week (the 20-24) 27th or after April 4th. Let me know what works on your end.

All – Happy St. Patrick's Day! I know that I've spoken to some of you about pulling together a monthly COS lunch. My thinking was that it could benefit all of us to meet in a less formal/structured setting to talk policy, personnel, management, etc. To that end, I have reserved a room at Acadiana Restaurant (details below) for Friday, March 31. My thinking is that we could establish a standing lunch date (i.e. last Friday of the month) and go from there.

Ryan-
Congratulations on being awarded the best job in town. Of course also one of the most demanding. Any chance a few of my Chamber colleagues and I can get some time on your schedule this week or next? We don't have any asks, just looking to outline what we are doing and can do in support of Administrator Pruitt's agenda. Thanks in advance. -christopher

Ryan,

I didn't have a chance to congratulate you before you left the Hill, but I hope things are well and that you're settling into the new job. I was wondering if you had a few minutes for a quick phone call later this week or early next?

a deeper dive on opportunities to:

1) advance "natural infrastructure" that is both cost-effective and high-performing;

2) identify regulatory streamlining that could enable such solutions to be more widely used, where cost-effective; and

3) Offer some thoughts more broadly on ways to improve decision processes while, at the same time, sustaining environmental safeguards and public health.

Subject: A brief call between Mr. Jackson & NYS DEC Commissioner Seggos

Hi Aaron,

I appreciate you taking a moment to speak with me a moment ago. As I mentioned the New York State Dept. of Environmental Conservation Commissioner, Basil Seggos, would like to speak with Secretary Pruitt's Chief of Staff regarding the Hudson River NRD.

I am, hoping to find a time that works for both the COS and Commissioner to speak for about 10 mins either later today, tomorrow, or Wednesday morning. If you'll recall the Commissioner will be travelling tomorrow extensively in the Adirondacks and cell service isn't always a sure thing which will limit his availability. That said I can safely offer the following:

Today, 4/10 – 5:15 to 5:45p;
Tomorrow, 4/11 – 8:30 to 10:00a; 2:30 – 3:00p; and
Wednesday, 4/12 – 9:00 to 10:45a

Side note, there is a chance that our Director of Federal Relations to

AMERICAN OVERSIGHT

the Governor, Alexander Cochran, may join as well if timing works. Please let me know if you have any further questions. I look forward to hearing back from you.

Regards,
Justin

AMERICAN OVERSIGHT

Ryan,
Sorry to bother you again. Just an FYI that in the transition confusion we accidentally sent the below meeting request to the wrong scheduler. The mistake has now been corrected. Just wanted to send a heads up in case you had a free minute to inquire about it and it wasn???t there. Thanks and apologies again for adding to an already overfilled inbox.Best,
Mitch

Ryan,
Congratulations on your new position. Sorry to bother you as I understand you have been so busy you haven't had time to pack up your old office. That said, I wanted to flag the below/attached meeting request as I believe it may be a model example to promote the theme the Administrator has raised about the benefits of delegating appropriate issues to states when they are best positioned to undertake a project or initiative. Anything you might be able to help with as far as shepherding this proposal through the process would be greatly appreciated. Congratulations once again and please don't hesitate to reach out with any questions.
Best,
Mitch

Subject: Meeting Request to Administrator Pruitt
Dear Ms. Jenkins

Attached is a letter requesting a meeting with Administrator Pruitt regarding the Hudson River Superfund Site. This letter was sent by

AMERICAN OVERSIGHT

Federal Express for delivery Thursday, March 30th.

I will be in Washington D.C. April 6th and 7th and would ideally meet with him at that time if his schedule permits. I will be attending Administrator Pruitt's address at the Environmental Commissioners of the States (ECOS) Friday the 7th -- one potential opportunity for a meeting. I will make myself available to accommodate Mr. Pruitt's schedule during this or a future trip.

With thanks,

AND Shhhhhhhh! Keep it quiet. He told me he didn't want me to do anything, but I know he was lying.

Sharnett, we have an additional participant for the meeting on Monday (May 15) at 3:30 pm. Her is the full list:

* Steve Berry, Volvo
* Brian Mormino, Cummins
* Paul Feenstra, PACCAR
* Sean Waters, Daimler
* Jed Mandel, EMA
* Jason Quaranto, Navistar

Hello Sharnett. Hope you are doing well. We are preparing for our meeting with Ryan Jackson for Monday, May 15th at 3:30 pm. 3 questions:

1. We understand that Mandy Gunasekara will also join the meeting which is great. Will anyone else from EPA attend?
2. Can you provide details on where we will meet?
3. Do you need information from us on attendees or anything else?

Thanks for your help. See you soon!

Subject: Commercial Vehicle Manufacturers Mtg Request - April 19

AMERICAN OVERSIGHT

Ryan, I hope you are doing well with your transition to the EPA. I will be visiting Washington, DC with several of my colleagues in the commercial vehicle industry and hope that you could meet with us on Wednesday, April 19th.

The participants in the meeting would be the President of the Truck and Engine Manufacturers Association (EMA) and executives from the major manufacturers – Cummins, Navistar, Paccar, Daimler and Volvo. Our intent is to discuss industry regulatory issues including the Phase 2 Fuel Efficiency and Greenhouse Gas regulations and the potential for a future low NOx rule.

We can be flexible on the timing for a meeting on April 19th. We are hoping that you would also invite other leaders in the Agency that could contribute to the discussion.

Please let me know what time would work and thanks for your consideration,

Brian

The exercise, as you'll see below and attached, is now set for 11:45 a.m. – 1:15 p.m. Fri., 6/23, at a FEMA National Response Coordination Center (NRCC) facility here in southwest DC (rather than 2:30 p.m. next Mon., 6/12, at the White House complex, as designated most recently). We're told that the scenario and the background materials are not likely to change, so the pre-briefing held for Mike yesterday (Mon., 6/5), as well as the excellent EPA briefing paper, should continue to serve for 6/23.

Ryan,

Wanted to follow up on the previous conversation you had with Rich. Esri, the world's leading geographic information system company, wanted to come in and have a brief meeting with you next week. The afternoon of the 28th is wide open and I think we can find some time in the afternoon on the 26th or 27th if that works better for you.

Please let me know what works best for your schedule and if you need any further information from me. Also including a link below to a map

Sharnett,

I appreciate the phone call just now. Let's make Friday (tomorrow work!!!)

As I said, I am trying to find a 15min window for a phone call between Eileen Stuart, SVP of Government Affairs for Mosaic and Ryan.

Eileen's #:
850-766-9747 <tel:(850)%20766-9747>

Please let me know a time when Ryan will be calling on Friday?

This will be in reference to a follow-up on their meeting in April on a couple of issues Ryan asked Eileen to follow-up directly and a possible

AMERICAN OVERSIGHT

visit to FLA from the Administrator in which Eileen will want to speak with Ryan about directly.

Thank You -

JH

The enviros deadline for a response is July 11th and then they are taking their stay request to the court. I don't feel compelled to respond, but want to flag this for everyone. Happy to organize a call tomorrow morning. Does 10 am work for a call?

Ryan,

AMERICAN OVERSIGHT

I write to request a meeting on behalf of our client Ameresco in regards to the proposed 2018 volume requirements under the Renewable Fuel Standard program for cellulosic biofuel.

Ameresco <http://www.ameresco.com/solution/biogas> is a member of the Coalition for Renewable Natural Gas <http://www.rngcoalition.com/> . The Coalition's member companies generate cellulosic biofuel under the Renewable Fuel Standard and produce a predominant share of D3 RINs. Biofuel from RNG Coalition members comprised more than 90 percent of D3 RINs generated under the RFS in 2015 and 2016.

Ameresco and the Coalition for Renewable Natural Gas would greatly appreciate the opportunity to meet with you to discuss the proposed 2018 RVO. Should it be useful, we have attached copies of the Coalition's comments submitted to the EPA and OMB earlier this year.

I hope you had a great 4th and we look forward to seeing you soon.

Regards,

Stratton

Ryan, Mandy,

We have Nick Bridge, the Foreign Sec's Special Representative <https://www.gov.uk/government/people/nick-bridge> , and Pete Betts, the UK's Director for International Energy and Climate, in the US next week (20th and 21st). Nick is a new appointment, previously the UK's ambassador to the OECD, and this is his first senior visit to the US.

They have a helpful overview of the UK's position and would be excellent contacts for the EPA. I suspect a meeting with the Administrator may be a push at this notice. They've very keen to meet senior advisors in the EPA to develop an understanding of the Administrator's direction on environmental protection, energy and climate issues.

I think you both met Archie Young, who works for Pete, in the margins of the G7 Environment Ministerial. I know Archie thought you would be good contacts for them to meet. It would be helpfully timed ahead of any potential visit from the Administrator to the UK.

Please let me know if you are available on Thursday or Friday next week. Mandy, I know we can't meet until the week after, but any time you can make would be welcome.

Thanks,

Alex

Christian: thanks so much for your assistance. I am glad I asked!

Aaron and Sharnett: As mentioned below, Congressman Young is hoping to schedule a brief, less than 15-minute phone call with Ryan Jackson. They are old colleagues from when they both worked in the Senate, so my boss wanted to reconnect and discuss glider kits. Does Mr. Jackson have any availability this coming Monday, July 24th? Congressman Young has wide availability 11a-12p or after 2:00p.

Thank you,

Sierra

Ryan,

Attached is a letter I'd like 15 minutes on your schedule to chat with you about when you return on Monday. This woman's husband has permanent change of station (PCS) orders from the Army and her career managers are forcing her to quit EPA rather than working wither her to keep her job and her family together. As a former active duty U.S. Army officer, I'm appalled at how they're treating her and would like to chat with you to see what we can do.

I'll leave a hard copy with your secretary as well and talk with her about getting 15 mins with you on Monday. Thanks for your consideration.

Best,
Joe

Hi Wendy,

Hope you're well. I wanted to touch base on some of the issues discussed at dinner a few weeks ago, especially as we look at planning our Japan trip. I've also attached the one-pager we discussed on Mercury issues. I'd love to chat when you have a few minutes.

Also, Mandy will likely be getting in touch with you soon on the automobile executive order.

Hi Everyone- Thanks in advance for making this time work later today. I will join the call for the first thirty minutes, but then will leave folks to finish the second half without me as I need to be on a different call with outside folks. Maddie, if you could circulate or have someone who is in the office circulate the sample days/weeks that we can walk through on the call that would be great.

Thanks,

Kevin

EPA HURRICANE HARVEY EXECUTIVE UPDATE

[redacted] CODE [redacted]

When speaking please identify yourself and organization. Please MUTE your telephone when you are not speaking.

WELCOME REMARKS – Sam Coleman, Acting Regional Administrator

WEATHER/STORM FORECAST –

NOAA tracks the storm and up-to-date information is available at http://www.nhc.noaa.gov/ .

MANDATORY EVACUTION UPDATE –

Update of local jurisdiction Reports

FUEL AVAILABILITY UPDATE –

Update of State Reports

STATE/TRIBAL FEMA ASSISTANCE REQUEST STATUS –

As of today, FEMA has not received any assistance requests from the states of Texas or federally recognized tribes. Texas Governor Abbott has declared state of disaster for 30 counties. Louisiana Governor John Bel Edwards declared a state of emergency for the entire state of Louisiana in anticipation of severe weather as a result of Hurricane Harvey.

EPA READINESS/PREPAREDNESS –

While EPA has not been formally tasked by FEMA at the request of impacted states or tribes, EPA is

AMERICAN OVERSIGHT

SUPERFUND NPL SITE STATUS –

In preparation for severe weather impacts, EPA assesses conditions at the NPL Superfund sites in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, EPA conducts rapid assessments to identify damage at sites and initiate cleanup plans if necessary.

PRIMARY INDUSTRIAL FACILITIES –

In preparation for severe weather impacts, EPA assesses conditions at the major industrial facilities in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, spills and releases are reported to the National Response Center. NRC notifies US Coast Guard or EPA based on preapproved jurisdiction boundaries. EPA conducts follow up inspections and damage assessments in response to reports within EPA jurisdiction.

PUBLIC WATER SYSTEM STATUS –

About 300 Public Water Systems are in the path (red zone) of Hurricane Harvey in Texas. Water systems often have problems due to flooding or loss of power during Hurricanes. Region 6 has developed a tracking system for us to identify systems in the storm's pathway. Both Texas Commission on Environmental Quality and Louisiana Department of Hospitals have uploaded their potentially impacted systems into Response Manager which enables planning for rapid assessments to restore water systems after the storm passes and flood waters recede.

EMERGENCY FUEL WAIVER STATUS –

The typical emergency fuel waiver request follows a path something like the following. An industry member will identify a failure in the fuel distribution system or at a refinery and raise it to Kurt, DOE and/or the state and Region. Since gas stations typically take deliveries two to three times per week, we normally have 24-72 hours before the system failure will lead to a retail shortage. In that time, the EPA/DOE team will hold calls with the potentially impacted state and industry to validate the issue and confirm relief is justified. Once an issue has been identified, the state air director on behalf of the governor will make a request for specific relief. The OECA team drafts a letter granting the relief for the Administrator's signature. DOE and OAR give concurrence on the letter and it is sent to the Administrator for signature. The signed waiver is quickly then disseminated to the impact states and industry members. The EPA press team will also issue a press release to increase awareness of the actions being taken to address potential fuel shortages.

COMMUNICATIONS UPDATE –

DHS Public Affairs initiated the National Incident Communications Conference Line on Thursday, August 24 and calls continue daily. The NICCL is a standing conference line designated, maintained, and supported by DHS Public Affairs as the primary means for interagency incident communications information sharing during an incident requiring Federal coordination. DHS Public Affairs provides guidance to Federal interagency public affairs headquarters staffs and affected authorities through the NICCL.

The National Economic Council will be hosting a Deputies Meeting on the Permitting Section of the President's Infrastructure Legislative Proposal on Thursday, August 31st at 3:00pm in Cordell Hull, EEOB 208. The purpose of this meeting is to discuss significant policy provisions in the permitting section of the President's infrastructure legislative package. The permitting legislative principles build on the Executive Order the President signed on August 15th and include proposed reforms to laws and policies that unnecessarily hamper infrastructure permitting, funding, and delivery. The permitting

Subject: Halliburton Meeting Request

Ryan – hope all is well with you and you have had some time to enjoy the Summer along with the 24/7 work schedule you are keeping. I was writing to see if you might have time to sit down with members of the Halliburton iMPACT group which will be holding its DC Fly-in on Sept 27th .

The iMPACT group is comprised of the next generation of leaders within our company. These men and women are all high potential employees and represent a diverse segment of Halliburton's product service lines and the U.S. regions/district locations where we operate (OK, Houston, Denver, North Dakota). This year, 10 individuals will be participating in the Fly-in representing our production enhancement, cementing, landmark digital oil field, completion technologies, supply chain and consulting and project management service lines. They will be visiting with senior administration officials and members of Congress during their time in D.C.

The Halliburton team would welcome an opportunity to sit down with you and discuss the political and regulatory matters EPA is addressing along with your thoughts on ways iMPACT and Halliburton can assist in advancing the energy and environmental protection policy

objectives of the Trump administration.

The group's itinerary is fairly open but we are able to meet with you anytime late morning Wednesday, Sept 27th until the early afternoon that day. I hope that your schedule will allow us an opportunity to visit. Jessica Franks copied on this email can work with your staff in finding a date and time that works for you.

Hope all is well and look forward to seeing you. Please give me or Jessica a call if you need more info or have questions.

Please let me know when you have some time to talk today and we will give you a call.

Agency deadline is September 30!
IMPORTANT REMINDER
JUST 3 CALENDAR DAYS ARE LEFT

FOR CAREER & NON-CAREER EPA EMPLOYEES, CONTRACTORS, AND GRANTEES TO COMPLETE THESE SESSIONS

Make it a Priority to Get These Completed Today!

Have you completed all your mandatory training?

* According to our latest daily tracking reports, nearly 100 career and non-career employees in AO have hardly started or have not started at all to complete these sessions.
* You do not have an option as to whether or not you take these online courses and there will be no extensions given!
* Later this week, we will be sending the list of names (who have yet to complete the sessions) to AO managers and supervisors so that they can personally follow-up with staff who must still complete these sessions.
* Help keep AO high-performing and avoid disruption in your network access by completing these trainings before the deadline.
* Are there consequences?? There are some consequences for not completing these sessions on time (e.g., you could lose access to the LAN if the Info Security Awareness Training is not completed on time). In addition, as we are coming up on the end-of-year performance discussions, this is likely something you would not want to discuss with your supervisor during the discussion.

Here is how to access the sessions:

AMERICAN OVERSIGHT

* Go here to take the courses: Everyone, including career and non-career current employees, contractors and grantees will find the courses they are to take in the "View Learning Plan & Mandatory Training" section on the EPA eLearning site <http://go.usa.gov/xKZFd> .

* YOUR user name and password are required to access the EPA eLearning site. All FY 2017 mandatory courses, including those for new employees are also listed on the EPA University SharePoint site: https://usepa.sharepoint.com/sites/OARM_Community/ EPAU/SitePages/Mandatory%20and%20Elective%20Traini ngs.aspx <https://usepa.sharepoint.com/sites/OARM_Community /EPAU/SitePages/Mandatory%20and%20Elective%20Train ings.aspx>

* The Six Courses to be Completed by Career and Non-Career EPA Employees are:
o FY 2017 Information Security Awareness (takes 45-60 minutes)
o 2017 Continuity of Operations (COOP) Awareness (takes 30 minutes)
o Freedom of Information Act (FOIA) Awareness (takes 30 minutes) (Note: if you have yet to start this class, please take FOIA 2 as this is the most current version of the course)
o FY 2017 Annual Records Management (takes 30 minutes)
o Domestic Violence (takes 30 minutes)
o Working Effectively with Tribal Governments (takes 30-45 minutes)

* Checking your training course status is easy:
1. From the One EPA Workplace intranet page, click on the eLearning icon
2. Access the eLearning site by logging in using your LAN ID and password
3. Click "Upcoming" under My Tasks if you have mandatory training yet to take
4. You can also click on the Learning Plan icon to see your status for all FY17 mandatory training courses

Note: The status of a green circle means you've completed it, a half circle means it's been started but not completed, and a dashed circle means it hasn't yet been started.

* INFO for EPA's New Employees: All new employees receive a Welcome to EPA eLearning email containing instructions for accessing training courses in the EPA eLearning site within two weeks of their employment. New employees are required to complete specific courses within their first 90 calendar days of employment. Otherwise, all courses are to be completed within 6 months. (See Second Attachment).

* QUESTION – Do New and Existing Agency Contractors and SEE Grantees have to Complete Some of These Sessions? Those contractors and SEE Grantees with an EPA e-mail account must complete the Information Security Awareness Training and the Domestic Violence training. The annual Records Management training

AMERICAN OVERSIGHT
EPA-18-0261-A-000936

is required for those Contractors who are required to complete it based on the specific contract language.

* COR Employees Receive 1 CLP for each Course Completed!

If you have any questions or need additional assistance, please contact me.

Regards!

Ryan –
I just learned that Cong Cole had to move his meeting with Burns to 3:30pm, so that reduces our window on Wed afternoon somewhat. Ideally, would now like to meet @ 4:15pm or 4:30pm if convenient for you, but otherwise on thus morning. Just let me know, and thanks again. Regards.

Hi Freda
Can we schedule a call at 2:00 today? The participants from EPA will be Samantha Dravis and John Konkus. Do you have a call-in number as Samantha and John may be calling in from different locations.

Subject: CERAWEEK SPEAKER Prep Call: Dr. Daniel Yergin and Scott Pruitt
Importance: High
Dear Aaron
I hope this email finds you well – and Congrats!
We are very excited that Mr. Pruitt has accepted our invitation to join us at CERAWeek! I am the executive assistant and scheduler for Dr. Daniel Yergin, the Chairman and Founder of CERAWeek. Dr. Yergin reaches out to all the plenary speakers in advance to review their sessions, the program and Q&A. Also, it provides time for the speakers and/or their handlers to become familiar with the program and it's setup while at the same time answer any queries. Therefore, I

AMERICAN OVERSIGHT

am in search of a time amenable on your schedule to do a prep conference call tomorrow.
Could you please check your schedule and let me know what's available? Dr. Yergin has a full day, but we can do 2:00-3:00 or 3:00-4:00p, or even between 4:00-5:00p if that works for you. We're literally down to the wire before kick-off, and hope we can be introduced over the phone, and prepare him for the session ahead. In addition, please provide the names/email addresses for all who will participate on the call from your end so they will be included on the email invite. Dr. Yergin only needs about 30 minutes of Mr. Pruitt's time, or that of his staff, but I am setting aside as much as an hour to accommodate if the extra time is needed.
Accompanying Dr. Yergin from our office will be Elena Pravettoni, Senior Economist; and Libby Tillemann-Dick, Research Manager.
Once a time is confirmed, I will send out the invite with call-in details.
I look forward to hearing from you soon.
Best regards,
Freda Amar

Great to hear from you Samantha. Anthony and I just talked this morning with OMB staff about this and would be more than happy to discuss. Also, just FYI, I sent an email to Ryan this morning suggesting Anthony and I come over for a "meet and greet" later this week or next week. You (and Brittany, if it is next week) would be particularly important folks to meet.

Subject: Canadian Energy

Ryan,
I wanted to ask for your advice on whether a meeting with the Administrator or his senior staff might be possible to talk about North American energy integration and streamlining environmental reviews for cross border energy projects. The meeting would be on either April 4 or 5 with a client who is a leader in the oil sands region of Alberta. As the Trump Administration and the Congress rethink the US energy policy, I know integration of North American energy, including the role of Canadian oil in helping to meet domestic needs and the role of pipelines like KXL is again be on the agenda. Although KXL finally is on track for approval, there remain many regulatory issues involved and likely other pipelines issues in the future raising issues to consider. We represent a group of Canadian oil companies that are drilling for oil in Alberta. Bill McCaffrey, the CEO of MEG Energy and the leading force behind our client, the In situ Oil Sands Alliance (IOSA), will be in DC for meetings on April 4 and 5 and I was hoping to schedule time with you or someone you might recommend at EPA to discuss next steps

toward better integration and North American energy independence. MEG and IOSA have done some pioneering work in the in situ process which is estimated to represent 80% of the available Canadian oil sands resource. A little biographically information about Bill can be found here <https://urldefense.proofpoint.com/v2/url?u=http-3A__www.megenergy.com_news-2Droom_story_meg-2Denergy-2Dpresident-2Dand-2Dceo-2Dbill-2Dmccaffrey-2Dnamed-2Dc-2Dsuite-2Denergy-2Dexecutive-2Dawards&d=DwMFAg&c=qwStF0e4-YFyvjCeML3ehA&r=wcjPQhbuYLwX5eajEXMIIBZbbZyNg--Ka1K1ZcnjLTU&m=T5faqnJ_ztIz3aCYmaTD7W2HhZc3TB6lsh7GdVeQurk&s=vIX5gi6WK09Pena6Tb1CWkfuHigJhX6gd1p5q-KiB10&e=> which summarizes an award he recently received for his dynamic leadership in energy issues including innovative development and transport of the resource. I also expect a few other executives from MEG and/or IOSA on the trip.

Subject: Arconic/CAFE meeting request

Hi Brittany, I don't think we ever met when we were on the Hill, but I worked for Cornyn for a long time until I decided to headed to the swamp. Ryan gave me your name and said you were working CAFE issues. We represent Arconic (they spun off from Alcoa) which manufactures aluminum parts for the automotive industry. They are a $12.5 billion company with 23,000 employees across the United States. They are very interested in the CAFE way forward and wanted to come in and give someone their input as major a supplier to the auto industry. Could I bother you for a meeting on Thursday, April 6? I would be happy to work around your schedule. It would be me and a represenative from Arconic. Thanks for your consideration. Russ

Title of the Meeting: Meet and Greet of State Commissioners on EPA Lean Action Board

Purpose: Introduce the state members of Lean Action Board (LAB), a group of senior EPA and state officials working collaboratively to eliminate waste and increase productivity in our environmental programs, to the Administrator. The LAB consists of 7 EPA SES members and the directors of two state (AZ, KS) environmental agencies. During 2016 the LAB focused on identifying Lean projects with transferable solutions and is working with EPA and state partners to share successful results with other states and regions with similar processes in need of improvement.

Last possible date for the meeting: The state members of the LAB would appreciate the opportunity to meet with the Administrator at the Mayflower before or after his Keynote at the ECOS on April 7, 2017. Subject: RE: Following Up on EEI Board Meeting

Good morning Samantha. Recognizing that the overall situation at the agency remains fluid and a beehive of activity, I nonetheless trust that you are easing in and fully in control!

We've been communicating regularly with OG&E's Sean Trauschke, who in turn spoke recently with Ryan about scheduling a meeting between the Administrator and EEI's environmental leadership CEOs. We'll work directly with Ryan on the specifics of that session. In the interim, however, these same CEOs are requesting that EEI assemble a small group of their senior company staff to come in and meet with you and your colleagues. From our perspective, this session would focus on key substantive and process (e.g., permitting and siting) issues, as well as the general EPA institutional landscape. When you get a moment, could you call me to discuss this item?

Thanks again for your past courtesies and I look forward to speaking with you soon. Best, Quin

Subject Meeting with WM Waste Management: Clean Air Act Rules for MSW Landfills

Landfill Air Rules Summary.docx

Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Dear Ms. Dravis and Mr. Sugiyama:

At the suggestion of Al Collins of Occidental Petroleum (Oxy), who met with you last week and now sings your praises, I am writing to request a meeting with you at your earliest convenience to discuss a set of rules promulgated by EPA pursuant to Section 111 (b) and (d) of the Clean Air Act that impose revised performance standards for both new and existing municipal solid waste (MSW) landfills. The regulations were promulgated as part of President Obama's Climate Action Plan: Strategy to Reduce Methane Emissions.

Waste Management, along with Republic Services, the National Waste & Recycling Association and the Solid Waste Association of North America (associations representing both public and private organizations and professionals) identified a number of substantial issues of law and policy with the new rules, including overlap and conflict with existing rules governing the same landfill sources. We have asked EPA to stay, reconsider and revise the two climate-related rules. We petitioners have also challenged the new rules in the U.S. Court of Appeals for the D.C. Circuit.

The landfill rules share similarities with other regulations that EPA may reevaluate, including the Clean Power Plan and Oil & Gas Rules:

* The new rule for existing landfills relies on the same Section 111(d) authority for which the Clean Power Plan has been criticized; and
* The cost/benefit analyses underpinning the more stringent performance standards in the rules rely heavily on the "social cost of methane," which is derived from the "social cost of carbon."

Should the Agency decide to rethink those elements in other rules, we believe it would be advisable to reconsider the landfill rules as well. Although we petitioners are prepared to move forward with the judicial challenge, we believe a reconsideration of the rules could lead to a better outcome without the need for litigation. While rule revisions are our ultimate goal, an administrative stay of the rules under the Administrative Procedures Act is critical to avoid forcing the regulated community and the states to begin implementing these flawed rules. Many states are already engaged in developing their mandated state plans for implementation, which are due to the EPA by May 30, so our request for a meeting is time-critical.

AMERICAN OVERSIGHT

I am attaching a recent letter we petitioners sent to EPA prior to Administrator Pruitt's confirmation. It includes our somewhat lengthy administrative petitions. I would be happy to follow-up next week by phone to identify a convenient time on your doubtless busy schedules. Several participants will be coming from out of town, including a former colleague of Mr. Sugiyama, Mack McGuffey of Troutman Sanders, but we can be flexible in accommodating your schedules.

Thank you in advance, and I very much look forward to meeting you.

This is an AA-level briefing under the Action Development Process. Participating offices may delegate participation to a senior manager below the AA-level. Following the conclusion of the public comment periods, the workgroup should consider any public comments received and determine which, if any, present substantive issues that may impact the development of the final rules. The OCSPP AA is expected to provide direction about the development of the final rules (including rulemaking decisions) in consultation with other senior managers, but the direction and decisions may be announced after the meeting if circumstances warrant.

Subject: RE: Question and Meeting Request -Edward G. Hild

Hi Robin – thank you so much for the response on behalf of Samantha. I will take the 3:00 PM slot. Likely joining me will be two colleagues from Buchanan – Robert Shuster and Terry Heubert and Pam Witmer the V.P. for Government Relations at UGI Energy Services. Thanks and again for your assistance and patience, as I recently left the Senate after 20 years and am just adjusting to life downtown. Ed

Subject: Question and Meeting Request

Hi Samantha – I hope this note finds you well. By way of quick background, I most recently served as Senator Murkowski's Chief of Staff and for a number of years before that with Senator Domenici. A couple of questions: 1) does the EPA maintain involvement in the state permitting process for natural gas pipelines when EPA has delegated administration of the federal 404 program – a client is asking and if so would a meeting with the right staff/staffers be appropriate, if you are not the correct person? 2) could you please direct me to the appropriate person for a meeting on the North American Emission Control Area for Marine Vessels on behalf of a different client. Thank you for your time and indulgence. I look forward to hearing from you. Ed

Small Business Environmental Roundtable
Issues for Discussion
April 7, 2017

Methylene Chloride and N-Methylpyrrolidone; Regulation of Certain Uses Under TSCA Section 6(a)

On January 19, 2017 EPA published a Toxic Substance Control Act (TSCA) Section 6(a) proposed rule to regulate certain uses of methylene chloride and n-methylpyrrolidone (NMP). EPA proposed a determination of unreasonable risk for methylene chloride and NMP use in paint and coating removal. The proposal includes a prohibition on the manufacture (including import), processing, and distribution in commerce for consumer and commercial uses for both chemicals. The proposed rule also includes a prohibition for these commercial uses of both chemicals, including downstream notification and recordkeeping requirements. The agency's proposal provides a ten-year limited exemption for coating removal uses of both chemicals critical for national security and an exemption for methylene chloride use in commercial furniture refinishing. The agency has also provided an alternate proposal to regulate NMP, which includes a requirement to establish a worker protection program for commercial use and a limit of 35 percent NMP for processors of paint and coating removal products.

EPA has prepared an initial regulatory flexibility analysis under the Regulatory Flexibility Act, examining the impacts of the proposed rule on small entities. EPA also convened a SBREFA panel to consider the impacts of the proposed changes on small entities in 2016; the panel report is in the docket. The comment deadline for the proposed rulemaking is April 19, 2017.

New Regulatory Reform Agenda

As indicated on the agenda, for the second hour, we plan on discussing the new regulatory reform agenda emanating from Executive Order 13771 (Reducing Regulations and Controlling Regulatory Costs, i.e., "1 in 2 out"), Executive Order 13777 (Enforcing the Regulatory Reform Agenda), and other White House directives.

AMERICAN OVERSIGHT

We are particularly interested in hearing from you about which regulations you think should be prioritized for review and reform.

The Office of Advocacy invites all small businesses and their representatives to present their perspectives as well. To reserve a spot on the agenda, please contact Tabby Waqar at twaqar@sba.gov <mailto:twaqar@sba.gov> .

Request:
I represent APS, the operator of the Four Corners Power Plan located on the Navajo Nation. We would like to discuss with you a federal implementation plan finalized in early January that affects the plant. We are preparing materials on the FIP; in short, APS is concerned with certain monitoring requirements that restrict plant operations without providing environmental benefits. APS believes there are more effective and less burdensome monitoring options available. I would appreciate the chance to speak with you about the FIP, which has not yet been published in the federal register.

Request: I am writing today on behalf of Northwest Public Power Association (NWPPA)'s Executive Director Anita Decker. Anita will be in Washington D, C. from Washington state on April 25-26, 2017. She would like to meet with Administrator Pruitt, you or other political appointees who are assigned to work on electric utility issues of interest to NWPPA.

NWPPA is an electric utility association in the Pacific Northwest representing 151 hydroelectric, nuclear power and natural gas electric utilities (municipal and electric coops) affected by EPA regulations including some that are going to be revisited under recent Executive Orders. Their membership involves many electric utilities (municipal and coop) that would be affected by EPA regulations across several states in the Northwest—not just those in Washington state.

AMERICAN OVERSIGHT

NWPPA's member utilities serve 20 million customers making it one of the largest electric utility organizations in the western part of the United States.

They are interested in the following:
* Waters of the US – next steps (realizing it has been addressed in the Executive Order)
* Clean Power Plan review and replacement (they are aware of the Executive Order action last week)
* General EPA priorities related to the electric power sector

A link to the NWPPA organization is https://www.nwppa.org/about-nwppa/ <https://www.nwppa.org/about-nwppa/> and board information at https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/ <https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/>

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request: We represent a golf coalition you may be familiar with called We Are Golf (WAG). The coalition was formed in 2008 with the express purpose of giving decision-makers in Washington a more accurate picture of the golf industry and the game of golf in general. Negative assumptions about who plays, where they play etc. and a lack of recognition about how many jobs golf provides and the nature of those jobs had lead to punitive singling out of golf in policymaking and legislation. Apart from clearing the air on those fronts, WAG has also invested a lot of the coalition's efforts in advocating around environmental issues. It's that set of issues we of course would love to talk about with Administrator Pruitt and your appropriate EPA colleagues.

The golf industry has made huge strides in recent years when it comes to sustainable management of the two million acres of open space golf course land and water we have in this country. We have a great story to tell about huge steps we have taken forward to improve water quality and use, energy savings, pollution reduction and creation and protection of high quality fish and wildlife habitat. We want to stay on this trajectory and firmly believe we can continue to improve golf property stewardship to provide broad public benefits. In recent years, federal policies have unfortunately represented drags on our ability to do this. The golf industry is very excited about starting some fresh conversations with this administration and we'd like to start at EPA with your boss. WAG is eager to work with an administration that will have an interest in pausing to think through how any new policies or enforcement of existing policies will impact the golf industry's ability to increase the environmental value of golf.

Subject: Regulatory Reform and Other Items

Brittany,

I read that one of your assignments is the regulatory reform task force. Consequently, I wanted to reach out on some issues of concern. I've attached an email that I sent to Ryan Jackson that raises several issues that we would like to discuss. (Separately, we are trying to arrange a meeting for Barry Russell, IPAA's President and CEO with Administrator Pruitt through Sydney Hupp.)

Obviously, events are moving quickly. I know that the Administration filed an abeyance petition on the Subpart OOOOa litigation today. There is an issue there that is related that I'd like to call to your attention. The Subpart OOOOa fugitive emissions program – with its costly Leak Detection and Repair (LDAR) requirements – is scheduled

AMERICAN OVERSIGHT

to take effect on June 3. It would be helpful if this requirement, at least, could be stayed while the Subpart OOOO and OOOOa requirements are being reconsidered since a different approach might be developed. I know there are other provisions that are already in effect that raise similar issues.

I also spoke with Dave Rostker from the SBA Advocacy office regarding LDAR in a small business context where the issues arises in both the Subpart OOOOa and VOC Control Techniques Guidelines context. He suggested reaching out to EPA as well.

Hopefully, we can discuss these issues soon given your schedule.

Thanks for your consideration,

Lee Fuller

Subject: IPAA Issues at EPA; Possible Meeting

Ryan,

I'm reaching out to you but would be happy if you point me to a preferred contact person.

After the recent Energy Executive Order, IPAA would like to discuss a number of pending issues with EPA.

Barry Russell, IPAA's President and CEO, would like to meet with Administrator Pruitt to introduce himself and IPAA. Barry worked for EPA in the 1970s before coming to IPAA.

The issues that we'd like to discuss relate to several matters.

First, EPA's actions in response to the Energy EO with regard to the methane NSPS (Subparts OOOO and OOOOa) are most important to IPAA. While currently engaged in the litigation opposing the regulations, the pathway to reconsideration and possible revision is critical. IPAA wants to be involved as soon as possible and wants to offer its cooperation.

Second, IPAA strongly supports efforts to expand and enhance delegation of regulatory authority to states. We are looking for options to be helpful in identifying pathways, working with our state cooperating associations to encourage state actions and working with Congress if there are barriers that need to be addressed.

Additionally, following are several other items – mostly directly affecting independent oil and natural gas producers – that we would like to identify as issues that we would hope EPA could address:

1. Control Techniques Guidelines (CTG) – As a part of the Energy Executive Order, EPA is directed to reconsider the oil and natural gas methane New Source Performance Standard (NSPS) – Subparts OOOO

AMERICAN OVERSIGHT

and OOOOa. When the Obama Administration proposed the NSPS, it also proposed a CTG for existing sources of Volatile Organic Compounds (VOC) in Ozone nonattainment areas. The CTG was finalized in October 2016. It should be suspended or withdrawn until the NSPS issues are resolved and determinations can be made on the appropriateness of the technology being applied to existing sources. Otherwise, the CTG will be applicable in future State Implementation Plans (SIP).

2. RCRA Subtitle D Consent Decree – EPA agreed to a Consent Decree to settle litigation regarding mandatory duties under RCRA Subtitle D related to making determinations regarding the appropriateness of state oil and natural gas production wastes regulations. EPA has until March 2019 to respond but it should act quickly for two reasons. First, EPA's mandate to act does not require an extensive burden and the longer it takes to act, the more state programs appear to be viewed as inadequate. Second, the mandatory duties require action every three years. Action in 2017 would allow EPA to reconfirm its position in 2020 and establish a clear practice for the future.

3. Unconventional Oil and Gas (UOG) Extraction Effluent Limitations Guidelines (ELG) – EPA finalized UOG Extraction ELG for discharges to Publicly Owned Treatment Works (POTW) in June 2016. These ELG should be based on a technology standard – Best Available Technology Economically Achievable (BATEA). EPA concluded that all discharges to POTW should be prohibited based on the availability of underground injection wells and of recycling options. Neither of these are BATEA. EPA should not be making zero discharge determinations based on its perception of other options. It should determine BATEA requirements. If the BATEA requirements are too expensive, it should be the dischargers' choice to use alternative approaches.

4. Clean Air Act Enforcement Tactics – Over the past several years, EPA's Enforcement tactics have been excessively aggressive. For example, in North Dakota where the state did not have delegation of the NSPS program for oil and natural gas production, EPA Enforcement initiated direct actions against producers with regard to its interpretation of Subpart OOOO requirements for storage vessels. This interpretation differed from those EPA technical staff had initially indicated. Using its enforcement power, EPA filed proposed penalties against a privately held producer that exceeded the value of its assets. The purpose was clear and predictable. EPA wanted to use its enforcement power to compel a limited asset company to enter into a consent agreement that would require actions that met Enforcement's interpretation of the regulation and to commit to additional actions that were beyond EPA Clean Air Act authority to require. Not only did EPA use a gap in state delegation to step over North Dakota in its zeal, but these types of enforcement tactics reflect poorly on EPA and the federal government and should be ended.

5. Ozone National Ambient Air Quality Standards (NAAQS) Revisions – The 2014 revision to the Ozone NAAQS should be reconsidered. Implementation of the 2008 revision to the Ozone NAAQS had yet to be implemented and evaluated when the 2014 revision was finalized. NAAQS attainment should be the target, not promulgating new, unachievable revisions. EPA's own data showed that the same areas it projected to fail to attain the 2008 NAAQS would fail to meet the 2014 revision. In those areas, the regulatory requirements would not

AMERICAN OVERSIGHT

change but the 2014 revision would bring new areas into nonattainment regulation. Even though EPA predicted those new areas would reach the 2014 NAAQS without additional local controls, those areas would be subject to new source permitting requirements that hamper their economic development. Where there is no compelling health benefit from a NAAQS revision – like the 2014 action – EPA should devote resources to attainment of the prior standard.

Thanks for considering this request. Please let me know how to proceed from here.

Location DCRoomARN3500/OPEI
Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Meeting proposal: ENERGY STAR is moving a specification on clothes washers, which we oppose. It is critical that I ensure you are aware of what is going on and hopefully stop this action until we can talk in more detail. While this is an urgent matter, it is also very important to discuss the ENERGY STAR program broadly. At a high level, we support its moving back to DOE for our products and have discussed this with the DOE beachhead team. We have CEOs and other senior executives from the entire industry meeting in DC for our Annual Meeting from April 29-May 2. It would be very helpful if we could discuss our issues with you before that. Any time from Tuesday, April 25, to Friday, April 28 would be ideal.

Discussion Topics:
SNAP Rule Allowing Isobutane (EPA-HQ-OAR-2009-0286) & Rule 21 (bans HFCs for refrigerators in 2021)
Microfibers (Trash-Free Waters)
Material Management/Landfill Diversion/Food Waste Disposers
Safe Drink Water
TSCA Reform Support
Counterfeit Water Filters

Hello OGC:

Anyone connecting to the OGC ALL Hands via Adobe Connect (link below) should not call into the 866 audio conference call in number to avoid sound feedback problems.

We would like to be able to see our remote and teleworking OGC staff on the screen via Adobe Connect, so please turn on your video-cameras for this meeting.

http://epawebconferencing.acms.com/ogcallhands0504 2017/
<http://epawebconferencing.acms.com/ogcallhands050 42017/>

OGC Colleagues: The Quarterly All Hands meeting will not be in room 1153 WJC East due to the unavailability of video-teleconference or data connections there due to the renovations of the room. However, we will stick to the May 4 date to give our invited guests time to prepare and certainty on all of our calendars.

We look forward to introducing our new Deputy General Counsels, as well as, other members of the Administrator's Office team. Also, remember if you have any questions you would like addressed by the OGC management team, but are uncomfortable raising them publicly, you should feel free to place them in the OGC suggestion box located in the 7th Floor large pantry. Thank you.

Regions: Please inform RTP on which room you will be using if connecting via video. Thank you.

Hi,
Would you set this up from Samantha's calendar Please? Thank you.

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

4 Attendees: Tamra Spielvogel, Amy Chai, Eva Birk and Tom Ward

Request: A follow-up conversation to discuss the RRP program. I'm emailing in follow-up to your conversation with Michael Mittelholzer at the NAHB meeting with Administrator Pruitt last week. I know several issues were discussed for additional follow-up during the meeting with the Administrator including the Renovation, Repair and Painting (RRP) Program and stormwater issues which my colleague Eva will be following up with you on in a subsequent message.

Attached is the material you and Michael discussed to provide additional detail regarding NAHB's concerns regarding implementation and evaluation of the RRP program. Specifically I have provided copies of NAHB's comments related to the Section 610 review as well as those NAHB submitted during both public comment periods EPA opened during the review of issues related to the lack of an approved lead test kit. Also, for your information I am including copies of two petitions NAHB has filed with EPA on the RRP program. The most recent was in regards to the changes made to the refresher training course requirements which was denied by the agency in December 2016. The EPA response is also enclosed. I have enclosed the 2010 petition because while the other documents discuss the issues we have with the economic analysis of the rule, it was most comprehensively addressed in this petition on the test kit.

Finally, I was also told you are interested in the report where EPA's cost benefit estimates were called into question. The report was

AMERICAN OVERSIGHT

issued by the EPA Office of the Inspector General. The following link will take you to the OIG page for the report where you can access their findings, the report, as well as the responses exchanged between OIG and EPA on the report.

* https://www.epa.gov/office-inspector-general/report-review-hotline-complaint-concerning-cost-and-benefit-estimates-epas <https://urldefense.proofpoint.com/v2/url?u=https-3A__www.epa.gov_office-2Dinspector-2Dgeneral_report-2Dreview-2Dhotline-2Dcomplaint-2Dconcerning-2Dcost-2Dand-2Dbenefit-2Destimates-2Depas&d=DwMGaQ&c=hCLxfJq9j_r9eaDl3ZiMkA&r=DfviL3kRqKM743rmnIq_w-YmxYFnL0aYOTLE6qeAuxE&m=Uc7N7YGeGjwphqQD_ZtaA2CdSmEZ2aHSsF5gGLMLQTs&s=17IzgOdtgYaU36BBqwuSuoY1VPgiv8 YnpxZP-nsglVI&e=>

I would note that one of the commitments made by the EPA to the OIG was to collect better data but they made the commitment to do so in the context of a separate rulemaking (the development of an RRP rule for Public & Commercial Buildings) and that survey is currently underway. NAHB individually and as part of an industry coalition has called into question the efficacy of this effort. While the data may be useful to the residential program collecting it in the context of the Public & Commercial Buildings rule has never seemed appropriate or truly illustrative given a range of other differences between the two rules. Furthermore, the data is being collected prior to establishing a hazard for Public & Commercial Buildings.

getting there about 10 min early to clear security.

Once there's a call-in number, I'll add that, too.

Please let me know if you have any questions.—Ben

All,

We're having the briefing tomorrow at 4pm in the New Executive Office Building in 10258. Conference room 10258 is just outside the elevator bay on the 10th floor. There is a meeting scheduled in the conference room just prior to the 4pm meeting, but there is small reception area outside of the conference room where you can wait. Here is the link to the appointment where all attendees should submit their security clearance information. Please do so as soon as possible as we'll need to submit this tomorrow morning so attendees can be cleared into the building.
(b) (6) We may have a call-in number as I imagine that some of the agencies who will be reviewing may not be able to send people over on such short notice. I'll send the call-in info in a later email.

Subject: IMF Meeting Request

Dear All,

As part of their ongoing activities, the International Monetary Fund (IMF) conducts periodic information gathering and economic assessments of member countries. Specifically, under Article IV of the IMF's Articles of Agreement, the IMF holds annual discussions with government representatives to discuss the country's economic developments and policies. Typically, IMF limits their inquiry to key economic agencies such as Department of Treasury, Department of Commerce and the U.S. Trade Representative. This year they are expanding the effort to additional agencies, including: EPA, Health and Human Services, Department of Transportation and Department of Energy. I have been requested by the lead agency, Department of Treasury, to represent EPA and pull together a group of experts who can speak to the specific issues provided below.

The IMF has submitted the following topics for discussion (written responses are not requested):

AMERICAN OVERSIGHT

Economic and environmental regulations

* Please share your views on the effectiveness of various EPA programs on environmental safety. How to you see the trade-off with respect to economic costs.

Policy priorities, views, and plans

* What are the main areas for reform (developing and enforcing environmental regulations, grants, research & partnerships, education)?

Please discuss views and plans with respect to:

- federal coal leases and the Stream Protection Rule

- the Clean Power Plan (CPP) targets for emissions of carbon dioxide

- limits on methane emissions and curbs on venting and flaring

- fuel economy and emission standards for cars and trucks; are they too onerous for the automobile industry in the EPA's assessment

- renewable fuel standard for biofuels

- Paris COP21 agreement and plans to ratify the agreement and achieve emission goals.

* What are your views on introducing a carbon tax and a border adjustment for carbon content of imported goods?

Budget

* Please discuss the potential implication of proposed funding cuts envisaged in the President's budget on EPA's delivery of grants, regulatory enforcement and staffing.

Jane

Former Special Ass't to the POTUS for Energy and the Environment

Attendees: Mandy Gunasekara, Brittnay Bolen, Samantha Dravis, and Ron Minsk

AMERICAN OVERSIGHT

Hi Mandy,

I wanted to introduce myself and request a meeting with you to discuss the RFS point of obligation issue. I served as the energy and environment person at the White House National Economic Council under President Obama during much of the time when the RFS was being addressed. I fully appreciate the complexity of the issue and sympathize with the difficulty of the issue that you are working on now.

I have long thought that moving the point of obligation was a way to substantially strengthen the program. Doing so would promote the blending of ethanol and reduce the cost by aligning the obligation to blend and the ability to blend. EPA has seemed to acknowledge the theory but has been skeptical with respect to whether there is data to support the theory.

I addressed this issue directly in comments that I filed in the docket recently and have attached to this email. In short, I show that obligated companies that are long are far less likely to blend than obligated parties that are short, and that the best way to promote blending is to adjust the incentives by moving the point of obligation. You can see these point most clearly in Figures 6 and 7 of my comments on pages 26 and 27 of the PDF file.

Without knowing what you are inclined to do, I know that even if you wanted to do this, you would want to be able to fully explain it. I also appreciate that there would be a lot of hard questions that stakeholders might raise. I know where you are because I have been there myself.

I would welcome the opportunity to walk you through my work and explain how I would answer the questions that I am sure you would want answers to if you want to make this change.

I am generally available to come in to meet with you. I can be reached [redacted] <mailto:[redacted] and by phone at 240-535-9799.

Subject: Introduction

Hi Brittany,

It was great to meet you at the Chamber meeting yesterday morning. I really appreciated hearing your perspective on all of the opportunities you and your team have at the agency. As we discussed, I work at Cummins and lead our government relations efforts on energy and environment issues, including truck and engine regulation for fuel efficiency and NOx.

I also mentioned that my colleague, Brian Mormino, was in town for meetings with the White House and your colleagues Ryan and Mandy (cc'd) at EPA to discuss some of these issues. I know we wanted to follow up with Mandy and keep you all in the loop on our discussions with the WH (Mike Catanzarro) regarding potential regulation streamlining and next-tier NOx, and I wanted to see if you might have time for a 30 minute meeting or call with me and Brian to fill you in on discussions.

Location DCRoomARN3500/OPEI

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request: I am writing on behalf of the Brick Industry Association (BIA) to request a meeting with Administrator Pruitt. BIA is a national trade association representing clay brick manufacturers, distributorships, and their suppliers. Two-thirds of all the brick shipped in North American is manufactured by BIA members. In addition, many BIA member companies are family-owned small businesses. Many of BIA's members are subject to a recently-promulgated National Emissions Standard for Hazardous Air Pollutants for Brick Manufacturing (i.e., the "Brick MACT"). BIA has a pending challenge to this rule in the DC Circuit. BIA does not want to discuss the litigation with the Administrator. BIA does hope to discuss with the Administrator the enormous impact that the rule is having on the industry and some of BIA's ideas as to how the rule could be improved and the burden lessened. A group of BIA members will be in Washington, DC, on Thursday, June 15. A meeting that date would be ideal. If that does not work for Administrator Pruitt, we would appreciate any suggested alternative dates.

AMERICAN OVERSIGHT

Hi Sydney,

There are no ethics concerns with respect to this event. See the following for more complete details.

Best, Jennie for OGC/Ethics

White House Ethics Pledge

The White House Ethics Pledge does not allow political appointees to accept gifts from registered lobbyists. The persons extending the invitation are not registered lobbyists or lobbying organizations, therefore the Ethics Pledge is not implicated.

Acceptance of Free Attendance (including a meal)

Because the official has been invited to speak and present information on behalf of the agency, pursuant to 5 CFR 2635.204(g)(1), acceptance of free attendance and any meals provided on the day of the event is not considered a gift. The official's participation in the event is viewed as a customary and necessary part of his performance of the event and does not involve a gift to him or to the agency. While free attendance will cover a meal that is provided to all attendees, it does not cover side events, receptions, and other meals (like a speaker's dinner) that are not open to all attendees.

Financial Disclosure Implications

Because this is not a gift, there are no financial disclosure reporting obligations.

Morning Amy,

It looks like Wednesday, June 21 at 2:00 will work best. Let me know if that works on your end and I will confirm. Will it be just Bob or will others be attending as well? If so, I will need all attendees full names to send to security. Additionally, if you could give a brief overview of the topics to be discussed and send over any materials that we should review beforehand that would be great. Any questions just let me know.

Best,

Alex Dominguez

Hi Amy - I was informed this was going to be a face to face as Bob would be in DC the 21/22. If this is incorrect not a problem and we can do it over the phone.

I'm GM's lead Republican managing our Federal team – I'm sorry that I don't think we've met in person yet. As you know, GM General Counsel and my boss GMNA VP for Public Policy met with the Administrator in April. I think that Mandy and Brittany were also in the meeting. We were hoping to schedule a meeting with the three of you and some of our technical folks from Detroit next week or the following regarding the fuel economy mid-term review and harmonization of EPA/NHTSA fuel economy standards.

Request:
I am writing to follow up on my invitation to speak to the Class of ’85 meeting on June 28, at 12 pm central. As I noted, the meeting will be hosted by one of our members in Maple Grove Minnesota. We would be happy to host you in person, or to set up a video conference from our offices located at 1299 Pennsylvania Ave, NW, Washington, D.C.
The Class of ’85 is a diverse group of electric generating companies located throughout the country. The Group was originally formed in

AMERICAN OVERSIGHT

1990 following the promulgation of the Clean Air Act amendments. In 2015, a subset of our members formed a work group, known as the Cross-Cutting Issues Group, focused on waste, water, and wildlife issues affecting the electric generating sector. These members have an active interest in the development of electric generating and associated infrastructure. A list of Class of '85 members is attached for your review. We appreciate your consideration of our invitation, and are grateful for the opportunity to hear from EPA about its priorities and ongoing regulatory reform initiative.

Location DCRoomARN3500/OPEI

Good morning, Robin!

I hope you had a great weekend. Would you please help me set up 30 minutes with Samantha and Brittany next week to discuss the proposed new ADA? I'd like Laura Gentile to join us as well if possible. As far as I can tell, any day next week should be fine.

Thanks,
Kevin

Subject Regulatory Reform Meeting with the American Iron and Steel Institute
Location 3528 WJCN
Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Attendees:
Mike Long, Cliffs Natural Resources
Patrick Bloom, Cliffs Natural Resources
Tom Miller, Nucor
Todd Young, U. S. Steel
John Stinson, Evraz North America
Tom Wesolowski, Evraz North America
Tom Dower, ArcelorMittal
Julianne Kurdilla, ArcelorMittal
Katie Larson, SSAB Americas
Brett Smith, American Iron and Steel Institute
Colin Carroll, American Iron and Steel Institute
Paul Balserak, American Iron and Steel Institute

Request: I would like to see if several AISI members and I could come in and give you an overview of the environmental issues that are key to the steel industry. Following on Administrator Pruitt's well-received address at our annual meeting last week, I think the timing is ripe for such a discussion. We would greatly appreciate the opportunity to brief you on our issues as you work to prioritize the comments received from your May 15 public information request on regulatory reform. We would also like to learn more about the potential revival of the something like the old Sectors Strategies program.

Hi Mandy-

Hope all is well with you. We were slated to host your boss in a week or so over at our Mercedes-Benz USI plant in Alabama, but unfortunately the scheduling kind of unraveled and it's a no-go. Hopefully we find another date down the road!

AMERICAN OVERSIGHT

In the meantime, I was wondering if you might have some time to meet with me and my colleague, Bill Craven who handles regulatory affairs? Bill is really the point person here in DC for Mercedes-Benz on all things GHG, Mid-Term Review-related. Was wondering if you have some time over the next week or so for a meeting? I know Bill would like to meet you and give you an update on our views related to GHG/CAFE issues.

Subject: RE: Petition for stay of ozone designations delay action

Below is a summary of the petition. Thanks to Karen Bianco. If you have further questions, please let us know.

AMERICAN OVERSIGHT

Several environmental groups filed a petition with the Administrator on July 5, asking that the Agency immediately stay, pending judicial review, the effectiveness of EPA's extension of the deadline to promulgate initial area designations for the 2015 ozone NAAQS. The petitioners allege that the Agency's decision to delay designations does not comply with Clean Air Act requirements and is irrational. The petitioners present a 4-part analysis of why a stay of the designations delay is warranted, specifically because (1) they are likely to prevail on the merits in an underlying challenge to the designations delay; (2) they will suffer irreparable harm without a stay; (3) a stay will not substantially harm other parties; and (4) the public interest favors a stay.

First, the petitioners state they are likely to prevail on the merits on a challenge to the Agency's 1-year delay of the deadline to make initial area designations because our rationale for delaying designations "is untethered from statutory considerations, unexplained, and baseless." Petitioners argue that the only factors relevant for EPA to justify an extension of the designation deadline relate to information about air quality conditions and areas that contribute to harmful quality, yet EPA did not cite these factors in justifying the delay. Petitioners allege that the factors EPA does cite (ongoing consideration of the 2015 standard, further analysis of background and international contributions to ozone pollution, analysis of exception events demonstrations) do not relate to the statutory standard of having "insufficient information" to proceed with initial area designations. Petitioners also argue that EPA has not explained how the information the Agency has is insufficient to make designations, noting in particular that international transport and background ozone relate to implementation of the standard, not designations, and such lack of explanation makes the delay arbitrary. Petitioners make additional allegations, including that EPA has not explained why it needs a full year delay (as opposed to a shorter delay) and why it cannot make designations for some areas, even if information is insufficient to designate parts of the country (e.g. locations most strongly influence by background ozone).

Second, petitioners explain that they will be irreparably harmed if the delay in designations is not stayed because a delay in designations results in a delay of pollution controls, state planning, and attainment deadlines, all of which will result in myriad adverse health and environmental impacts. Third, petitioners allege that granting a stay will not harm other parties because EPA, states, and industry cannot be cognizably harmed by having to comply with the ozone implementation program Congress enacted. Fourth, petitioners attest that the public interest favors staying the designations delay because EPA has projected (in the rulemaking setting the 2015 ozone NAAQS) that compliance with the 2015 standards

AMERICAN OVERSIGHT

will realize significant health benefits.

The petitioners state that they intend to file a petition for review of our final action in the D.C. Circuit shortly and to seek a stay from the Court, and accordingly ask that we respond to their request by 6:00 p.m. on July 11, regarding whether the Agency will grant their requested stay.

Request: My friend and co-author, Oren Cass of the Manhattan Institute, has written far-and-away the best commentaries in recent months on climate, Paris, and the EPA. He has some advice for you on some things to consider as Administrator Pruitt structures his red-blue team approach. Specifically, he wants to urge you that one of the most valuable things you could do is to study the "baselines" that are being used to forecast potential emissions trajectories; this is a huge shortcoming of current science and is being badly mischaracterized/misused. An EPA analysis of it would be hugely valuable. I can't recommend strongly enough that you meet Oren soon Here's his bio <https://www.manhattan-institute.org/expert/oren-cass> . Hi Aaron-

Thanks for your email. Samantha Dravis the AA for Policy, as well as Sarah Rees in OP should be part of this discussion. Samantha and I have a briefing with the administrator that is scheduled to end at 4:30 tomorrow, but we never end those on time. That said, would 5pm work for a call?

Hey Brittany,

AMERICAN OVERSIGHT

I was wondering if you, Mike and I can have a call on the draft report for Section 2 of EO 13783 that is due at the end of the month at 4:30pm tomorrow. I am not sure who else from EPA should be on the line, but if you can add them to the call, I would greatly appreciate it.

You can call Mike's office at [redacted] at 4:30, assuming that time works.

Please let me know if you have any questions and if that time works.

Thanks.

Subject Senior Leadership Council Meeting - Day 2
Location WJC-N 3rd Floor, The Green Room
Show Time As Busy

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19,

AMERICAN OVERSIGHT

will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

I reached out to Mr. Schuette to give me your contact information because I wanted to keep Mr. Pruitt's office in the loop regarding op eds in the Washington Times. The Times will be running a section on energy. When they have asked me to submit an op-ed on the topic of ethanol, they mentioned that they would also be publishing an op-ed from Mr. Pruitt.
Attached is what I have submitted. I suspect that my views are in line with those of Mr. Pruitt, but I wanted to provide him an opportunity to comment on what I wrote. Any comments or suggestions that his office has would be welcome.

Location 3513A
Show Time As Busy

I hope this email finds you both well and thriving. The purpose of my meeting was two-fold. One is that I want to introduce myself, as an 30 year EPA employee, President of the William D. Barber, Jr., Chapter of Blacks in Government (BIG) here in Headquarters, and share a little history and background about both the organization and the chapter. Also, to share with my goals and objectives for the chapter during my tenure. Second, I want to extend an invitation on behalf of the Chapter, to Samantha to participate in our Agency forum that we have just about every year at the BIG annual training conference. Furthermore, it would be an honor and a pleasure if she would be the keynote speaker for the forum. The Agency forum will be held Tuesday, August 22, 2017, from

AMERICAN OVERSIGHT

9:00am-4:30pm, at the Harrah's Resort and Casino, Atlantic City, NJ. Our theme for this year is "Resiliency In Uncertain Times" (announcement attached). I have prepared a packet to leave with you during our meeting, and I will bring it with me should we get the opportunity to do so. However, I have attached some of what is in the packet for your information and to give you an idea of what the organization is about. Also, here's a link which outlines the organizations goals and objectives, http://www.bignet.org/index.php/about-us/goals-and-objectives.

Finally, if you are able to participate, please do not hesitate to let me know, if not thank you for the opportunity to share BIG with you and hopefully, we can count on your support for future programs and events. Have a great day!

Samantha and Brittany have expressed an interest in learning more about the Administrative Procedure Act (APA) in the context of rulemaking. They and Justin Schwab decided to organize a very informal APA Discussion Group or Roundtable for this purpose. The first meeting will focus on Judicial Review and what courts look for in upholding or invalidating a rule or other agency action. At the end of this meeting,

Initial briefing w/ Jake Triolo – Mike Durham of Soap Creek Energy will not be in attendance.

Mandy and OP were unable to meet when Mike Durham was in town on initially requested dates of August 8 or 9th.

First off, hope August is going well. Hopefully getting some time off.

Anyway, I wanted to follow-up on scheduling a meeting with Mandy. Mike was just here and it was again recommended by a number of Hill staffers that we come over to EPA and run our proposal by Mandy. With that in mind, I just spoke to Mike and he can make himself available the weeks of September 11th and September 18th. Additionally, he can be available September 28-29. Finally, Mike can be available the week of October 2nd.

So obviously we have a lot of open times. If something works during any of those 4 weeks let me know?

Thank you so much,

Jake Triolo

Hey Dominguez —

I was just giving your contact information by Surya—I know both he and Mandy. Surya indicated you were the best person to go through to schedule a meeting with Mandy.

A few weeks back we were having lunch and chatted a bit about a client we are working with on a tax issue related to coal. I had mentioned to Mandy that I was going to try and bring the client in at some point as we are curious about the EPA's thoughts on the issue.

Anyway, the client is Soap Creek Energy, LLP, a start-up energy company that deals in the development of energy efficient applications for electricity generation from coal. Their CEO, Mike Durham, who is also the chair of the National Coal Council, will be in town on the 8th and 9th and would like to meet with Mandy to discuss alternatives to the carbon capture and storage provisions in the Internal Revenue Code (Section 45Q). A draft copy of the proposal is attached.

We are open on the 8th before 10:30 and anytime after 3PM. On the 9th, we are open anytime before 4PM. Please let me know if any of those times work for Mandy?

Thank you so much, and have a great weekend.

I hope all of your trips in August have been going well!

I wanted to loop back with you on Corn Oil 1 after our conversation in Iowa. Could you help schedule a phone call between Corn Oil 1 and Mandy for sometime next week? Devin and I would like to be on the call as well.

Corn Oil 1 is still not understanding why they are being placed in the bio-intermediary category. It'd be helpful from my end if Mandy (or whoever is the correct person) could loop Devin and I in on the reasoning for labeling them as such before the call.

Thank you SO much for all of your help on this!

Best,

Stephanie

AMERICAN OVERSIGHT

Request: On behalf of the combined 3.5 million members of the United Association (UA) and North America's Building Trade Unions (NABTU), I request the pleasure of a meeting with you, President Mark McManus of LIUNA and President Sean McGarvey of NABTU on July 5th 2017. UA and NABTU members care about infrastructure; and that is what we would like to discuss with you. Our members often benefit from the good paying jobs that are a byproduct of development and deployment of all types of infrastructure, from pipelines, to highways and waterways. UA and NABTU have a track record of supporting projects that will create union jobs and we maintain an all of the above approach to energy development.

We are particularly enthused to see the department's efforts to streamline project permitting. An acceleration of permitting and construction of infrastructure carries with it the potential to create thousands of jobs with extensive economic multiplier effects across the United States economy. Specifically we would like to discuss how we work together on the Administration's infrastructure development agenda and share our ideas for public policy that will further our mutual goals: jobs and a growing economy.

We'd like to discuss the "electric pathway," which is a part of the Renewable Fuel Standard that would allow small animal farms, like dairies in Wisconsin and Pennsylvania, to benefit from the generation

AMERICAN OVERSIGHT

and sale RINS. A final rule promulgated three years ago gives EPA significant flexibility to implement the electric pathway by approving applications on a case-by-case basis, but EPA staff have been pushing for yet another rule-making.

BTR Energy is an applicant under the electric pathway, and we're completely unique in our focus on driving value to parts of the animal agricultural industry. We'd like to discuss approving our application and adjusting the 2018 renewable volume obligations to account for the RINs we can currently create. We work with almost two dozen dairy, swine, and cattle farms across the country that would immediately benefit from our program, and our work now has the support of over a dozen members of Congress, including folks like Congressman Chris Collins from NY and Congressmen Mike Gallagher and Sean Duffy from WI.

Approving our application shouldn't be a big lift for EPA staff, in our view. The supply and delivery of the renewable fuel (electricity) is there, and we've done most of the work, as the rule has been in place and inactive for three years (we can discuss that more in the meeting). In that way, the program is extremely efficient: low effort for EPA, high impact on farms that have traditionally been locked out of the RFS.

I've attached a summary document that explains the issue and profiles two of our partners. I've also attached a letter of support one of our partners wrote to their Congressional representatives and an executive summary of BTR Energy.

We've had more than a half dozen meetings with staff in the OTAQ office over the last three years. Last week I had coffee with Ben Hengst, who supports Chris Grundler, the director of OTAQ. Ben suggested we aim to meet with Mandy Gunasekara individually so that we could be candid about our experience.

We also met with Mr. Kell Kelly last week, who agreed that Mandy is the right person.

I hope all that helps. We can provide a lot more context in the meeting.

Request:

We will be having our fall legislative fly in the second week of September. As part of the fly in, I was wondering if it is possible to schedule a briefing with you, or other senior EPA staff on September 12th to discuss various priority environmental issues with the Minnesota Pork Producers. Minnesota is the number two state for pork production, behind Iowa.

This would be primarily more of a "getting to know you" meeting with a general discussion on issues on the farm than any specific in depth focus on any single issue.

However, issues of note for Minnesota include the following:

* Nutrients, the value of manure, and water quality standards.
* Air Emissions Reporting from livestock farms
* EPA's NESHAP for Reciprocating Internal Combustion Engines (on farm backup diesel generators) 40 C.F.R. Part 63, Subpart ZZZZ

Attendees:

Michael Formica, National Pork Producers Council

David Preisler, Executive Director, Minnesota Pork

Jill Resler, Chief Operations Officer, Minnesota Pork

Lauren Servick. Director of Communications and Marketing, Minnesota Pork

Subject Meeting with the Association of Home Appliance Manufacturers to Discuss HFCs and the SNAP Program

Location DCRoomARN3500/OPEI

Show Time As Busy

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 10 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Attendees: TBD

Request: I'm sure you saw the recent court ruling on HFCs and the SNAP program and I know you are busier than heck, but it really would be beneficial if I could meet with you on this when I am in DC the week of Aug 21. We are already hearing from senior leaders from our appliance manufacturers. Can you meet with me to discuss this? I am not expecting any final decisions from you at this early stage. I just think we need to understand the possible scenarios and possible impacts of each as you weigh your options. I will be meeting with CARB shortly, too. PS - also as a heads up we are discussing the likelihood of some of our CEOs coming to DC in Sept/Oct to meet with a few key Trump Administration leaders, and Administrator Pruitt would hopefully be one of those meetings we would be able to coordinate.

Details on what he wants to ask…

The Economist is producing a long package on deregulation during the Trump administration. The EPA has been perhaps the most active agency when it comes to taking regulatory action. I am hoping to speak with a high-level official who would be able to provide for me:

* The progress and pace of deregulatory actions in concrete terms.
* Active areas of rulemaking which would have the effect of rescinding Obama-era regulations
* The cost-benefit calculations behind these determinations.

We would appreciate detail and granularity on these issues.

DIAL-IN
Host Dial-In: (b) (6)
Leader Code: (b) (6)

Thanks Liz!

Michael Catanzaro will also be on the call, from our end. In terms of run of show, Samantha should walk the surrogates through the action, grounds, and what it all means (the "so-what/major impact" points to be made on TV). The group invited includes energy experts, think tanks, conservative cable TV pundits and columnists.

When you dial-in, you will be greeted by an AT&T operator, who will put all of us in a special queue. We can then hash-out the official run of show before being connected to the larger surrogate group. The AT&T operator will run the Q&A portion of the call after the briefings have been done.

Thank you all for doing this. If you have any questions, please call me at (b) (6)

Request: Earlier this year, our client the National Marine Manufacturers had a very productive meeting with your team at the EPA focused on E15 issues. At that meeting, we also raised an issue regarding something called HFC 134a. NMMA member company Structural Composites is using HFC 134a to produce some extraordinary new products – ultra-light weight composite material being used to make boats and truck trailers primarily, but they are hindered by EPA regulatory issues.

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Request: I was able to join the Smart Sectors kick-off event yesterday. It really is exciting to see industry and government working together to find solutions to environmental issues. I am located here in DC for The Mosaic Company. We are a U.S. mining and manufacturing company (we mine phosphate and potash to make critical crop nutrients or fertilizer for farmers in the US and around the world) that touches a few sectors. We submitted comments to the EPA earlier this year on regulatory reform. I'd love to come by and give you more info on who we are and what we have been experiencing in the permitting area. If it works to also include the liaison for chemical manufacturing that would be great. My colleague Eileen Stuart will be joining me as well.

Per discussion just now with SD & BB – OGC's edits have been passed on to OAR/sharepoint.

Per an email from Josh Lewis Tuesday, there are a bunch of outstanding edits responding mostly to OMB policy issues.

OP requests that we find a time today or tomorrow for the team on this email to go through the remaining issues (Erik, I'm including you in case OP/Mandy need counsel on the pending litigation, but I understand if you can't make it).

It would be good to close this out tomorrow, which I understand is AS's last day as the OIRA desk officer.

Mandy will open the line

Stephen Fotis (Van Ness Feldman) and Marine Funk (Shell). Potentially one or two Shell officials calling in from Texas.

Mandy and Samantha – I would like to request a meeting with you and Shell regarding air regulatory issues. One important focus of the meeting would be on EPA's upcoming rulemaking to reconsider the final NSPS Subpart OOOOa rule for limiting methane and VOCs from new and modified oil and gas facilities. In addition to me, those attending the meeting on behalf of Shell would include Marnie Funk from the Shell WDC office and Dick Francis or other senior Shell management from Houston. As to timing, we can be flexible and have general availability to meet at your convenience over the next few weeks in October.

Many thanks,

AMERICAN OVERSIGHT

Ryan – I'm reaching out on behalf of my boss, Congressman Garret Graves (LA-6). He would like to get on the phone with the appropriate person at EPA to discuss the attached letter we sent to Administrator Pruitt on March 7. Local refiners, oil marketers, convenience stores and gas stations are heading into the summer months facing a mandate to lower the Reid Vapor Pressure (RVP) of gasoline. For the past 2 years the industry has been required to implement the lower RVP by the state DEQ. It can however be waived, and has been done so in several areas around the country (info below). EPA can provide the flexibility for the state to eliminate the requirement, and that is our ask. As summer is fast approaching, timing is of the essence. I have cc'd our scheduler who can provide the Congressman's cellphone number and otherwise handle logistics of setting up a quick call. Thank you very much for your help on this.

Ian

BACKGROUND

* Today, Reid Vapor Pressure (RVP) limits provide minimal benefit to ozone air quality because of improvements in vehicular emission equipment and the inability to blend ethanol lower than 8.8 RVP. These combined factors result in very few to no measurable benefits for ozone reduction.

* Producing different RVP grades creates higher production costs for the refiner and these costs are passed on to the consumer (up to $0.10/gallon).

* Having different standards of RVP requires additional inspection and enforcement efforts.

* RVP limits will not likely be considered an effective method to reduce ozone in the future, since the EPA recently strengthened the National Ambient Air Quality Standards (NAAQS) to 70ppb.

* The 7.8 RVP requirement has been eliminated in other areas such as: Denver and Boulder, CO; Grant Parish, LA; Florida; Raleigh, Durham, and Chapel Hill, NC; Greensboro, NC; Winston and Salem, NC; High Point area in North Carolina; Jefferson and Shelby counties

AMERICAN OVERSIGHT

(Birmingham area) in Alabama; and Mecklenburg and Gaston counties in North Carolina. The EPA is currently considering eliminating the RVP requirement in Pittsburgh, PA, a city very similar to Baton Rouge, LA.

Subject Meeting with National Alliance of Forest Owners
Location Alm Room

Today's Date: April 3, 2017

Meeting Date: April 5, 2017

Meeting Time: 3:50 pm

Requested Location (if offsite, please list address, parking instructions, etc.): EPA, Administrator's Office

AMERICAN OVERSIGHT

Requestor: The National Alliance of Forest Owners is an advocacy association of 48 companies and 29 forestry associations representing over 80 million acres of private forestland throughout the country. Nationwide, private forests constitute 70% of the nation's forests and support 2.4 million jobs and $99 billion in annual payroll.

Purpose of the Meeting: To introduce the National Alliance of Forest Owners to the Administrator and discuss how forest owners and EPA can work together on water and air policies that will support jobs in the forestry sector and the rural economy overall.

Background on the Meeting: NAFO has two significant policy matters pending before EPA:

1. Regulation of Biomass Carbon Emissions

* Forest biomass is a plentiful renewable energy resource that is typically the product of forest management or mill operations.
* Producing energy from this low value product provides mills with an efficient power supply, supports jobs in rural communities and provides a better economic return for forest owners, many of whom continue to struggle to find markets for their wood following the Great Recession.
* For many years, EPA policy treated biomass as carbon neutral, in line with the rest of the world, meaning that any carbon emitted from combustion of biomass is recaptured by growing forests as part of the natural carbon cycle.
* In 2010, without public notice or scientific basis, EPA's "Tailoring Rule" reversed that policy and regulated greenhouse gas emissions from biomass without regard for the natural carbon cycle.
* Since 2010 EPA has repeatedly committed to revise and clarify its biomass policy but failed to do so. The resulting uncertainty has stalled investment in biomass energy at mills and stand-alone facilities.

We are seeking to work with EPA to remove uncertainty about biomass in EPA policy through amendments to the Tailoring Rule that are pending at OMB. Clarity on biomass will correct EPA's policy on biomass, restore the natural forest carbon cycle as the underpinning for biomass energy policy, and support job-sustaining investment.

2. Waters of the US (WOTUS) Regulations

* Forest management activities are generally consider nonpoint sources except for stormwater control ditches and herbicide applications.

AMERICAN OVERSIGHT

* Courts have required NPDES permits for herbicide applications in forests, but EPA has elected not to regulate ditches as point sources.
* However, the expansion of WOTUS under the new definition will create confusion about where else the permits are required and what additional requirements are imposed if the ditches are now WOTUS.
* Features that EPA declared to be WOTUS in the revised definition that are of concern to NAFO members include ephemeral and intermittent streams, ditches, and isolated wetlands.

Role of the Administrator: To provide insight on the issues listed above.

Subject: Follow up -- Request for Meeting - Biodiesel

Brittany,

Hope you are well.

Trying to set up a meeting with your team for next week on biodiesel issues related to the RFS.

Any chance we can catch up with your team for a few minutes on Thursday the 13th or Friday the 14th?

I will have at least three biodiesel CEO's in town at that time and would like to stop by for a short introduction.

Very much appreciated.

Thank you.

Ryan,

This is a follow up from last week and clearly you are extremely busy.

Is there any chance we could meet with you or someone on your team to discuss biodiesel issues and the renewable fuels program.

We will be brief and precise – we would like an opportunity to visit about the upcoming rulemaking process.

Thank you.

AMERICAN OVERSIGHT

Ryan,

Larry Schafer here with Playmaker Strategies, we represent a handful of companies that produce over 300 million gallons of biodiesel.

Our clients, Gene Gebolys from World Energy and Scott Lewis from Biox will be in Washington DC on Thursday, April 13 and Friday, April 14.

Mr. Gebolys and Mr. Lewis run well-established biodiesel companies -- combined these two companies have plants in five states and Canada (Texas, Mississippi, Georgia, Pennsylvania, Massachusetts and Ontario)

We would like to bring them by for a short meeting to discuss the 2018 Renewable Fuels Standards (RFS) and specifically the Advanced Biofuels part of that program.

Might you have a few minutes to meet on either of those days?

Please let us know. Thank you.

We can be reached by email at Lschafer@playmakerstrategies.com <mailto:Lschafer@playmakerstrategies.com> or telephone at 202.997.8072.

Background:

By May 15, EPA must submit a plan to the Federal Court that describes how we will comply with the Judge's order to comply with Section 321 of the Clean Air Act. The court order requires EPA to complete a major study of the electric power and coal mining sectors by July 1. And by the end of the calendar year, we need to submit evidence that we are instituting an Economic Dislocation Early Warning System -- aimed at

EPA Contact: For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Dear Ms. Dravis and Mr. Sugiyama:

At the suggestion of Al Collins of Occidental Petroleum (Oxy), who met with you last week and now sings your praises, I am writing to request a meeting with you at your earliest convenience to discuss a set of rules promulgated by EPA pursuant to Section 111 (b) and (d) of the Clean Air Act that impose revised performance standards for both new and existing municipal solid waste (MSW) landfills. The regulations were promulgated as part of President Obama's Climate Action Plan: Strategy to Reduce Methane Emissions.

Waste Management, along with Republic Services, the National Waste & Recycling Association and the Solid Waste Association of North America (associations representing both public and private organizations and professionals) identified a number of substantial issues of law and policy with the new rules, including overlap and conflict with existing rules governing the same landfill sources. We have asked EPA to stay, reconsider and revise the two climate-related rules. We petitioners have also challenged the new rules in the U.S. Court of Appeals for the D.C. Circuit.

The landfill rules share similarities with other regulations that EPA may reevaluate, including the Clean Power Plan and Oil & Gas Rules:

* The new rule for existing landfills relies on the same Section 111(d) authority for which the Clean Power Plan has been criticized; and

* The cost/benefit analyses underpinning the more stringent performance standards in the rules rely heavily on the "social cost of methane," which is derived from the "social cost of carbon."

Should the Agency decide to rethink those elements in other rules, we believe it would be advisable to reconsider the landfill rules as well. Although we petitioners are prepared to move forward with the judicial challenge, we believe a reconsideration of the rules could lead to a better outcome without the need for litigation. While rule revisions are our ultimate goal, an administrative stay of the rules under the Administrative Procedures Act is critical to avoid forcing the regulated community and the states to begin implementing these flawed rules. Many states are already engaged in developing their mandated state plans for implementation, which are due to the EPA

AMERICAN OVERSIGHT

by May 30, so our request for a meeting is time-critical.

I am attaching a recent letter we petitioners sent to EPA prior to Administrator Pruitt's confirmation. It includes our somewhat lengthy administrative petitions. I would be happy to follow-up next week by phone to identify a convenient time on your doubtless busy schedules. Several participants will be coming from out of town, including a former colleague of Mr. Sugiyama, Mack McGuffey of Troutman Sanders, but we can be flexible in accommodating your schedules.

Thank you in advance, and I very much look forward to meeting you.

Subject: Meeting Request

Dear Ms. Gunasekara:

We are writing to request a meeting with you and your colleagues to discuss a number of EPA regulations and permit requirements that we have identified as adversely affecting our member's manufacturing operations. On March 31, AF&PA filed comments in response to the Department of Commerce's Request for Information pursuant to the President's January 24 directive, and our comments discuss problems and proposed solutions related to 77 distinct rules and permit issues impeding U.S. manufacturing. Most of the comments focus on EPA issues.

AF&PA President and CEO Donna Harman has requested a meeting with Administrator Pruitt on behalf of several of our CEOs on May 4th, and we believe that meeting with you and other key EPA staff in advance of that meeting would enable the Administrator to be well-briefed and ensure the meeting is as productive as possible. As the issues we would like to discuss span a number of EPA offices, we have copied several of your colleagues on this message. We will facilitate your busy schedule, but the dates of April 18-21 look good for us.

Top priority issues we would like to discuss include:

1. Carbon Neutrality of Biomass

2. Air Permit Gridlock

3. Human Health Water Quality Criteria

4. EPA Procurement Guidelines for Paper and Paper Products Containing Recovered Materials/Specifications, Labels and Standards

AF&PA represents U.S. manufacturers of pulp, paper, packaging, tissue and wood products. Our industry employs 900,000 hard

AMERICAN OVERSIGHT

working men and women, and our mills often are located in small, rural communities that need good-paying jobs. The U.S. forest products industry is very heavily regulated, but at the same time also must operate efficiently in a fiercely competitive global market.

We look forward to hearing from you soon and to discussing these important issues. Thank you for your consideration.

Best regards,

Paul Noe

Mandy - I'm not sure of your familiarity with the Navajo Generating Station (NGS) in AZ, but it's sole source for coal is a Peabody coal mine. Together they employ approx. 1,000 Native American Indians.

Given the President's campaign message, it is critically important that NGS not be closed, as reps for the Salt River Project have proposed. My client, Peabody, would like to come meet with you next week regarding a recent independent study that shows a viable, profitable path forward for NGS. Bureau of Reclamation owns 24% of NGS, FYI, and we've met with DoI officials incl Scott Cameron, and Sec. Zinke.

Please let me know if you have time to visit next week. Thanks very much for your consideration. Appreciated.

Thanks,
Scott

Somehow, we managed to let our Acting Deputy Administrator's birthday pass by without recognition. To make up for it, please come down to the Deputy's office at 12:30 today to sing the birthday song for the sake of Mike's embarrassment, and let's all eat a cookie together.

AND Shhhhhhhh! Keep it quiet. He told me he didn't want me to do anything, but I know he was lying.

Hi Mandy-
We think the issue you raised below is an outgrowth of the OIG Management Alert issued February 6 of this year which found some concerns with Q/A of ozone monitoring data. We responded as part of standard practice to the OIG with a letter that noted that we found the issues raised in the Alert were not significant – ie, "based on our analysis so far, we believe that the vast majority of the most recent available ozone air monitoring data are not impacted by these findings and, thus, the ozone designation process should not be affected." Related to the Alert, we conducted further analysis of recent ozone air quality data and determined that data quality criteria were not met for 14% of the monitors in the national network for the period 2013-2015 – see attached Word document and PowerPoint slides. It looks to me that what you heard was a result of this follow-up analysis. I am copying Mike Koerber on this note (and Steve Page), and Mike can provide further context and walk you through this.
Thanks
Sarah

Just reaching out to see if you would be available for a short conversation concerning pending litigation on the wood heater/pellet fuel rule. This litigation is currently being held in abeyance at the D.C. Circuit based on the agreement of EPA and petitioners and without the objection of intervenors.

I represent the Pellet Fuels Institute (PFI); PFI separately challenged

AMERICAN OVERSIGHT

EPA's final standards for pellet fuel on the basis that they exceed the Agency's statutory authority under CAA section 111, are arbitrary and capricious and lack a sufficient administrative record. Since the current abeyance only extends until June, it would be helpful to discuss how we might be able to engage the Agency on this matter.

I am available by phone or in person to discuss this matter; whatever works on your end. I realize that your schedule is extremely busy, but believe that it will not take very long to lay out the very substantial issues that we believe are raised by the final rule.

Subject: Regulatory Reform and Other Items

Brittany,

I read that one of your assignments is the regulatory reform task force. Consequently, I wanted to reach out on some issues of concern. I've attached an email that I sent to Ryan Jackson that raises several issues that we would like to discuss. (Separately, we are trying to arrange a meeting for Barry Russell, IPAA's President and CEO with Administrator Pruitt through Sydney Hupp.)

AMERICAN OVERSIGHT

Obviously, events are moving quickly. I know that the Administration filed an abeyance petition on the Subpart OOOOa litigation today. There is an issue there that is related that I'd like to call to your attention. The Subpart OOOOa fugitive emissions program – with its costly Leak Detection and Repair (LDAR) requirements – is scheduled to take effect on June 3. It would be helpful if this requirement, at least, could be stayed while the Subpart OOOO and OOOOa requirements are being reconsidered since a different approach might be developed. I know there are other provisions that are already in effect that raise similar issues.

I also spoke with Dave Rostker from the SBA Advocacy office regarding LDAR in a small business context where the issues arises in both the Subpart OOOOa and VOC Control Techniques Guidelines context. He suggested reaching out to EPA as well.

Hopefully, we can discuss these issues soon given your schedule.

Thanks for your consideration,

Lee Fuller

Subject: IPAA Issues at EPA; Possible Meeting

Ryan,

I'm reaching out to you but would be happy if you point me to a preferred contact person.

After the recent Energy Executive Order, IPAA would like to discuss a number of pending issues with EPA.

Barry Russell, IPAA's President and CEO, would like to meet with Administrator Pruitt to introduce himself and IPAA. Barry worked for EPA in the 1970s before coming to IPAA.

AMERICAN OVERSIGHT

The issues that we'd like to discuss relate to several matters.

First, EPA's actions in response to the Energy EO with regard to the methane NSPS (Subparts OOOO and OOOOa) are most important to IPAA. While currently engaged in the litigation opposing the regulations, the pathway to reconsideration and possible revision is critical. IPAA wants to be involved as soon as possible and wants to offer its cooperation.

Second, IPAA strongly supports efforts to expand and enhance delegation of regulatory authority to states. We are looking for options to be helpful in identifying pathways, working with our state cooperating associations to encourage state actions and working with Congress if there are barriers that need to be addressed.

Additionally, following are several other items – mostly directly affecting independent oil and natural gas producers – that we would like to identify as issues that we would hope EPA could address:

1. Control Techniques Guidelines (CTG) – As a part of the Energy Executive Order, EPA is directed to reconsider the oil and natural gas methane New Source Performance Standard (NSPS) – Subparts OOOO and OOOOa. When the Obama Administration proposed the NSPS, it also proposed a CTG for existing sources of Volatile Organic Compounds (VOC) in Ozone nonattainment areas. The CTG was finalized in October 2016. It should be suspended or withdrawn until the NSPS issues are resolved and determinations can be made on the appropriateness of the technology being applied to existing sources. Otherwise, the CTG will be applicable in future State Implementation Plans (SIP).

2. RCRA Subtitle D Consent Decree – EPA agreed to a Consent Decree to settle litigation regarding mandatory duties under RCRA Subtitle D related to making determinations regarding the appropriateness of state oil and natural gas production wastes regulations. EPA has until March 2019 to respond but it should act quickly for two reasons. First, EPA's mandate to act does not require an extensive burden and the longer it takes to act, the more state programs appear to be viewed as inadequate. Second, the mandatory duties require action every three years. Action in 2017 would allow EPA to reconfirm its position in 2020 and establish a clear practice for the future.

3. Unconventional Oil and Gas (UOG) Extraction Effluent Limitations

AMERICAN OVERSIGHT

Guidelines (ELG) – EPA finalized UOG Extraction ELG for discharges to Publicly Owned Treatment Works (POTW) in June 2016. These ELG should be based on a technology standard – Best Available Technology Economically Achievable (BATEA). EPA concluded that all discharges to POTW should be prohibited based on the availability of underground injection wells and of recycling options. Neither of these are BATEA. EPA should not be making zero discharge determinations based on its perception of other options. It should determine BATEA requirements. If the BATEA requirements are too expensive, it should be the dischargers' choice to use alternative approaches.

4. Clean Air Act Enforcement Tactics – Over the past several years, EPA's Enforcement tactics have been excessively aggressive. For example, in North Dakota where the state did not have delegation of the NSPS program for oil and natural gas production, EPA Enforcement initiated direct actions against producers with regard to its interpretation of Subpart OOOO requirements for storage vessels. This interpretation differed from those EPA technical staff had initially indicated. Using its enforcement power, EPA filed proposed penalties against a privately held producer that exceeded the value of its assets. The purpose was clear and predictable. EPA wanted to use its enforcement power to compel a limited asset company to enter into a consent agreement that would require actions that met Enforcement's interpretation of the regulation and to commit to additional actions that were beyond EPA Clean Air Act authority to require. Not only did EPA use a gap in state delegation to step over North Dakota in its zeal, but these types of enforcement tactics reflect poorly on EPA and the federal government and should be ended.

5. Ozone National Ambient Air Quality Standards (NAAQS) Revisions – The 2014 revision to the Ozone NAAQS should be reconsidered. Implementation of the 2008 revision to the Ozone NAAQS had yet to be implemented and evaluated when the 2014 revision was finalized. NAAQS attainment should be the target, not promulgating new, unachievable revisions. EPA's own data showed that the same areas it projected to fail to attain the 2008 NAAQS would fail to meet the 2014 revision. In those areas, the regulatory requirements would not change but the 2014 revision would bring new areas into nonattainment regulation. Even though EPA predicted those new areas would reach the 2014 NAAQS without additional local controls, those areas would be subject to new source permitting requirements that hamper their economic development. Where there is no compelling health benefit from a NAAQS revision – like the 2014 action – EPA should devote resources to attainment of the prior standard.

Thanks for considering this request. Please let me know how to proceed from here.

Topic: First, NSP has been working with EPA since 2013 to gain approval for a sorghum oil biodiesel pathway. The Agency has the legal authority to approve this pathway but continues to request information immaterial to approval. Second, sorghum farmers have witnessed significant pesticide-related restrictions and the threat of revocation of more than half of the crop's reliable insecticides. NSP recognizes the significant challenges the coming registration reviews of important chemistries will bring.

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

For an escort from Security to the meeting call (202) 564-4332; for all other matters call Robin Kime (202)564-6587.

Meeting proposal: ENERGY STAR is moving a specification on clothes washers, which we oppose. It is critical that I ensure you are aware of what is going on and hopefully stop this action until we can talk in more detail. While this is an urgent matter, it is also very important to discuss the ENERGY STAR program broadly. At a high level, we support its moving back to DOE for our products and have discussed this with the DOE beachhead team. We have CEOs and other senior executives from the entire industry meeting in DC for our Annual Meeting from April 29-May 2. It would be very helpful if we could discuss our issues with you before that. Any time from Tuesday, April 25, to Friday, April 28 would be ideal.

Mandy:

Congrats, "I think", on your new mission in life. Met with Mary Neumayr couple days back and appreciate all of you who are now on the front lines are drinking from a fire hose right now. Hang in there as the road can only get smoother!

Been trying to connect with you by phone since you're landing at EPA and hoping this email finds its way to you. Am following-up on the potential of you appearing on ICAC's May 3rd Clean Air Summit program. Have included our original email trail below as a refresher. Certainly hope you can work this into your schedule as summit attendees are aware that you have been invited and excited about getting your perspective on things.

Holler if you have any questions, need an official letter on ICAC letterhead, etc. or I can assist you in any manner to make this as user friendly for you as possible up front.

Best regards and look forward to hearing from you.

4. A briefing paper prepared by OAR/Region 6/OECA for Samantha Dravis on April 18th. It lays out what we viewed as a positive path forward.

5. The Agency's long-standing policy on the use of "no action assurances."

Note from Sam Coleman

We last communicated on this on 4/24 at 12;02 PM. Since that time, the staff at R6 and HQ have worked very hard to come up with the two response letters attached. (b)(5) DPP [redacted] I have been in contact with Dr Brown, and have attached his concerns in the form of the two text messages below:

Two texts from Chuck Car Brown.

(1/2) I like version 2 best. Can the following sentence be added as the last line in the second to last paragraph?

While this course of action is being executed, the RVP requirement for all 16 parishes can remain at remain at 9.0 .

(2/2) Thanks. Just need a little more clarity regarding what the refiners need to do immediately. We can always take what was written and take the lead as the State and direct the refiners but would opt for more clarity. Great hanging out today.

(b)(5) DPP [redacted] His cell no is (b) (6) [redacted]. Dr. Brown has held off the refiners making production changes up to now but has stated that he needs to give some direction very soon.

AMERICAN OVERSIGHT

All,

We're having the briefing tomorrow at 4pm in the New Executive Office Building in 10258. Conference room 10258 is just outside the elevator bay on the 10th floor. There is a meeting scheduled in the conference room just prior to the 4pm meeting, but there is small reception area outside of the conference room where you can wait. Here is the link to the appointment where all attendees should submit their security clearance information. Please do so as soon as possible as we'll need to submit this tomorrow morning so attendees can be cleared into the building. https://events.whitehouse.gov/form?rid=XQTCHM2KDK. We may have a call-in number as I imagine that some of the agencies who will be reviewing may not be able to send people over on such short notice. I'll send the call-in info in a later email.

AMERICAN OVERSIGHT

Request:

I wanted to pass along a few letters that you may or may not have already seen. I've attached letters from the Colorado Oil and Gas Association, the Colorado Association of Commerce and Industry and the Colorado Petroleum Association. I understand you may have also received similar letters from North Dakota industry associations. They address an issue that we've been talking about for quite a while, the need to reevaluate the previous Administration's campaign against oil and gas operators and return primary control to the States, as intended under the Clean Air Act. As we've discussed many times, we are simply advocating for a return to regular order and the type of "cooperative federalism" that the Administrator so ably champions at every opportunity.

Sharnett, we have an additional participant for the meeting on Monday (May 15) at 3:30 pm. Her is the full list:

* Steve Berry, Volvo
* Brian Mormino, Cummins
* Paul Feenstra, PACCAR
* Sean Waters, Daimler
* Jed Mandel, EMA
* Jason Quaranto, Navistar

Hello Sharnett. Hope you are doing well. We are preparing for our meeting with Ryan Jackson for Monday, May 15th at 3:30 pm. 3 questions:

1. We understand that Mandy Gunasekara will also join the meeting which is great. Will anyone else from EPA attend?
2. Can you provide details on where we will meet?
3. Do you need information from us on attendees or anything else?

Thanks for your help. See you soon!

Subject: Commercial Vehicle Manufacturers Mtg Request - April 19

Ryan, I hope you are doing well with your transition to the EPA. I will be visiting Washington, DC with several of my colleagues in the commercial vehicle industry and hope that you could meet with us on Wednesday, April 19th.

The participants in the meeting would be the President of the Truck and Engine Manufacturers Association (EMA) and executives from the major manufacturers – Cummins, Navistar, Paccar, Daimler and Volvo. Our intent is to discuss industry regulatory issues including the Phase 2 Fuel Efficiency and Greenhouse Gas regulations and the potential for a future low NOx rule.

We can be flexible on the timing for a meeting on April 19th. We are hoping that you would also invite other leaders in the Agency that could contribute to the discussion.

Please let me know what time would work and thanks for your

Dear Mandy,

Your father, Mike, and I have been friends for some time now, and he suggested I contact you regarding a notice of an EPA violation and subsequent EPA and Structural Steel Services (SSS) correspondence.

I have attached the original Notice of Violation which we received on Aug 14, 2016 and the recent email from Erika White. There have been several documents exchanged. Structural Steel Services has been in business over 40 years in Meridian, MS. a family owned business employing nearly 300 people, fabricating steel for pollution control operations, natural gas facilities, and now we are fabricating beams for bridges to assist in building a better transportation system to improve the economic viability for our country. We have always complied with all rules and regulations. However, we have recently undergone a transition in personnel. Our Safety and Human Resource Director retired after 42 years. A majority of our employees have been with us many, many years. During that transition we failed to submit the required report that we have always submitted, on time, every time. We have always utilized the chemicals in question in the amounts indicated as required for this special reporting form. We have not altered our practices in any way. This was simply a clerical error, (late submission) and the report was subsequently submitted. However, as you can see we have been given a violation which allows us to either submit a SEP or pay the EPA fine. We had elected to submit a SEP, but have had no assistance from the EPA in guiding us in what would be acceptable. We continue to be told it must have nexus, but we are stymied in how nexus can be related to a clerical error. Our contacts at EPA have been Erika White, Atlanta office, Robert Bookman and Eddie Chou.

We have always been a community supporter, fabricating and building pavilions, handicapped bathrooms, and accessible buildings for the boy scout council. We have given our time, funds and expertise in matters that concern our community such as Special Olympics, State Games, college scholarships, financial support for school trips. The list goes on and on.

We would never, knowingly, violate an environmental policy. Our employees and their families come first. They live here and work here. We have always and will always be helpful partners with our families and our community.

Your father, Mike, and I have been friends for some time now, and he suggested I contact you regarding a notice of an EPA violation and subsequent EPA and Structural Steel Services (SSS) correspondence.

I have attached the original Notice of Violation which we received on Aug 14, 2016 and the recent email from Erika White. There have been several documents exchanged. Structural Steel Services has been in business over 40 years in Meridian, MS. a family owned business employing nearly 300 people, fabricating steel for pollution control operations, natural gas facilities, and now we are fabricating beams for bridges to assist in building a better transportation system to improve the economic viability for our country. We have always complied with all rules and regulations. However, we have recently undergone a transition in personnel. Our Safety and Human Resource Director retired after 42 years. A majority of our employees have been with us many, many years. During that transition we failed to submit the required report that we have always submitted, on time, every time. We have always utilized the chemicals in question in the amounts indicated as required for this special reporting form. We have not altered our practices in any way. This was simply a clerical error, (late submission) and the report was subsequently submitted. However, as you can see we have been given a violation which allows us to either submit a SEP or pay the EPA fine. We had elected to submit a SEP, but have had no assistance from the EPA in guiding us in what would be acceptable. We continue to be told it must have nexus, but we are stymied in how nexus can be related to a clerical error. Our contacts at EPA have been Erika White, Atlanta office, Robert Bookman and Eddie Chou.

AMERICAN OVERSIGHT

We have always been a community supporter, fabricating and building pavilions, handicapped bathrooms, and accessible buildings for the boy scout council. We have given our time, funds and expertise in matters that concern our community such as Special Olympics, State Games, college scholarships, financial support for school trips. The list goes on and on.

We would never, knowingly, violate an environmental policy. Our employees and their families come first. They live here and work here. We have always and will always be helpful partners with our families and our community.

Any assistance you can provide would be helpful and appreciated.

Ron Minsk
Former Special Ass't to the POTUS for Energy and the Environment

Attendees: Mandy Gunasekara, Brittnay Bolen, Samantha Dravis, and Ron Minsk

Hi Mandy,

I wanted to introduce myself and request a meeting with you to discuss the RFS point of obligation issue. I served as the energy and environment person at the White House National Economic Council under President Obama during much of the time when the RFS was being addressed. I fully appreciate the complexity of the issue and sympathize with the difficulty of the issue that you are working on now.

I have long thought that moving the point of obligation was a way to substantially strengthen the program. Doing so would promote the blending of ethanol and reduce the cost by aligning the obligation to blend and the ability to blend. EPA has seemed to acknowledge the theory but has been skeptical with respect to whether there is data to support the theory.

I addressed this issue directly in comments that I filed in the docket recently and have attached to this email. In short, I show that obligated companies that are long are far less likely to blend than obligated parties that are short, and that the best way to promote blending is to adjust the incentives by moving the point of obligation. You can see these point most clearly in Figures 6 and 7 of my comments on pages 26 and 27 of the PDF file.

Without knowing what you are inclined to do, I know that even if you

AMERICAN OVERSIGHT

wanted to do this, you would want to be able to fully explain it. I also appreciate that there would be a lot of hard questions that stakeholders might raise. I know where you are because I have been there myself.

I would welcome the opportunity to walk you through my work and explain how I would answer the questions that I am sure you would want answers to if you want to make this change.

I am generally available to come in to meet with you. I can be reached at rminsk@earthlink.net <mailto:rminsk@earthlink.net> and by phone at (b) (6)

Subject: Introduction

Hi Brittany,

It was great to meet you at the Chamber meeting yesterday morning. I really appreciated hearing your perspective on all of the opportunities you and your team have at the agency. As we discussed, I work at Cummins and lead our government relations efforts on energy and environment issues, including truck and engine regulation for fuel efficiency and NOx.

I also mentioned that my colleague, Brian Mormino, was in town for meetings with the White House and your colleagues Ryan and Mandy (cc'd) at EPA to discuss some of these issues. I know we wanted to follow up with Mandy and keep you all in the loop on our discussions with the WH (Mike Catanzarro) regarding potential regulation streamlining and next-tier NOx, and I wanted to see if you might have time for a 30 minute meeting or call with me and Brian to fill you in on discussions.

AMERICAN OVERSIGHT

From: Kime, Robin On Behalf Of Bolen, Brittany
Sent: Thursday, June 1, 2017 9:05 AM
To: Bolen, Brittany; smiller@bia.org; Inge, Carolyn; Wehrum, William L.; Lovell, William; Dravis, Samantha
Subject: Meeting with the Brick Industry Association
When: Thursday, June 15, 2017 1:30 PM-2:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: DCRoomARN3500/OPEI

Directions: Please use the William Jefferson Clinton North Entrance located on your right as you exit the Federal Triangle Metro Station. Please arrive 20 minutes prior to the meeting with photo IDs to clear Security.

EPA Contact: For an escort from Security to the meeting call (b) (6) for all other matters call Robin Kime (b) (6)

Request: I am writing on behalf of the Brick Industry Association (BIA) to request a meeting with Administrator Pruitt. BIA is a national trade association representing clay brick manufacturers, distributorships, and their suppliers. Two-thirds of all the brick shipped in North American is manufactured by BIA members. In addition, many BIA member companies are family-owned small businesses. Many of BIA's members are subject to a recently-promulgated National Emissions Standard for Hazardous Air Pollutants for Brick Manufacturing (i.e., the "Brick MACT"). BIA has a pending challenge to this rule in the DC Circuit. BIA does not want to discuss the litigation with the Administrator. BIA does hope to discuss with the Administrator the enormous impact that the rule is having on the industry and some of BIA's ideas as to how the rule could be improved and the burden lessened. A group of BIA members will be in Washington, DC, on Thursday, June 15. A meeting that date would be ideal. If that does not work for Administrator Pruitt, we would appreciate any suggested alternative dates.

John F. Metzger, Sr. Environmental Specialist

Request: We would like to meet with you to discuss 3M's ideas for regulatory reform, which we provided to U. S. EPA in accordance with Executive Order 13777. A number of changes that we suggested should fit nicely the dual criteria of "timing" and "simplicity" that you spoke about during today's ACC meeting. We would especially like to discuss with you how a number of the New Source Performance Standards (at 40 C.F.R. Part 60) constrain research and development, which is the lifeblood of innovative companies such as 3M, and remedies that we believe EPA can readily put in place.

Pool Cover Industry Stakeholders

Mimi,
Thank you for the introduction.

Daris, good to meet you.

I represent a coalition of US domestic manufacturers in the swimming pool industry. Specifically, the custom manufacturer of swimming pool covers.

One of the larger firms is based in Westfield, Indiana.

This coalition has been engaged with the EPA for several years on a consumer awareness strategy regarding water conservation.

Wanted to approach your office on the idea of a public private partnership with the EPA and the cover manufacturers.

The group will be coming to D.C. On June 20-21.

I can get you more specific info under a separate cover.

Reason for the request is that the current, career staff at the EPA have had difficulty conceptualizing the idea of a P3 approach.

Wanted to see, given the Indiana angle, if your office could provide some support for the concept.

Let me know if I can provide further info and thank you in advance for your consideration.

Carl

Show Time As Busy

I would propose the following agenda:
•Introduction of attendees
•Brief description of CO1
• What and where
•Delineation of the issue and the plight of CO1
•Brainstorm Solutions with EPA
•Next steps

Attendees:
Robert G. Riley, Jr.
Joseph P. Riley
Joshua Andrews
AJ Moore
Devin Mogler
Ken Markowitz – not completely sure if he is attending or not yet

Overview of the issue:
• We need help from this administration to correct the wrong conclusions of the past administration
• In 2015 EPA has indicated that CO1 is a bio-intermediary
• We believe this is an erroneous conclusion – we have legal and industry opinions supporting CO1 as well as scientific data backing us up
• EPA indicated for more than 2 years that a rule would be forthcoming to give bio intermediaries access to the market- no viable market access has materialized

AMERICAN OVERSIGHT

• Other industries/feedstocks are operating in precisely the same manner as CO1 and are given access to the market
• We need help from the Trump administration to correct the wrong conclusions of the Obama administration

It will just be Bob and the only other addition may be Joseph Riley his son. Bob's full name is Robert G. Riley Jr.

I have asked about topics to be covered and I will get back to you.

Morning Amy,

It looks like Wednesday, June 21 at 2:00 will work best. Let me know if that works on your end and I will confirm. Will it be just Bob or will others be attending as well? If so, I will need all attendees full names to send to security. Additionally, if you could give a brief overview of the topics to be discussed and send over any materials that we should review beforehand that would be great. Any questions just let me know.

Best,

Alex Dominguez

Yes, you are correct. I think I was thinking this meeting was to be held in DM while he was gone to DC. Yes, he will meet face to face in DC. Amy

Hi Amy - I was informed this was going to be a face to face as Bob would be in DC the 21/22. If this is incorrect not a problem and we can do it over the phone.

I'm GM's lead Republican managing our Federal team – I'm sorry that I don't think we've met in person yet. As you know, GM General Counsel and my boss GMNA VP for Public Policy met with the Administrator in April. I think that Mandy and Brittany were also in the meeting. We were hoping to schedule a meeting with the three of you and some of our technical folks from Detroit next week or the following regarding the fuel economy mid-term review and harmonization of EPA/NHTSA fuel economy standards.

Alex, Please see below if you have any questions do not hesitate to let us know. We did discuss this issue with Administrator Pruitt directly in a meeting with him and Justin Schwab the last week in April. Regards, Tim

Background:

In order to be used for compliance under RFS2, biofuels must have an approved pathway. Pathways are based on GHG modeling of the production process and the feedstock used. Sorghum oil biodiesel does not have an approved pathway and thus cannot be used in biodiesel production costing our growers and industry money and leading to ethanol plants stopping the purchase of sorghum. This is a significant problem as approximately 10 sorghum ethanol plants are now extracting oil but cannot sell their oil into the valuable biodiesel market.

We have submitted three documents to EPA staff totaling 325 pages. We have been working on this issue with EPA for over 3 years. The original petition was submitted in July 2016, and follow-up submissions answering staff questions were sent in January 2017 and April 2017. We also sent follow-up answers to Aaron Levy in early May and had sorghum ethanol plant staff do the same. He assured us the questions we answered would be the last in this process. Sorghum oil biodiesel can be approved by letter and extensive modeling has already taken place, so the process should be expedited.

Background on the Meeting: Short background: First, NSP has been working with EPA since 2013 to gain approval for a sorghum oil biodiesel pathway. The Agency has the legal authority to approve this pathway but continues to request information immaterial to approval.

Long Background: NSP has been working with EPA since 2013 to gain approval for a sorghum oil pathway. For several years EPA staff maintained NSP would not be required to submit a full petition. EPA then reversed course and asked for a full petition. NSP submitted a full petition in July of 2016 after having invested significant time and funding into research to gather the data EPA requested. We believe this petition

AMERICAN OVERSIGHT

can be approved by letter without any formal rulemaking process. In fact, EPA has multiple legal precedents in the last two years.

Despite this precedent, EPA asked for additional information in October of 2016, and NSP submitted this information in January of 2017. EPA again asked for additional information in March of 2017, and NSP submitted this information in April of 2017. This most recent submission will have no bearing on EPA's approval of this petition as the information will have a negligible impact on greenhouse gas (GHG) emissions. Per the RFS2 final rule, a fuel is considered advanced if its GHG emissions achieve a 50 percent reduction from the established baseline. Sorghum oil biodiesel is almost identical to corn oil biodiesel, and corn oil biodiesel meets this GHG reduction threshold easily having been approved in March 2010.

Every month that drags by costs sorghum farmers and ethanol plants hundreds of thousands of dollars. This has nothing to do with the philosophical debate over the RFS. This has everything to do with EPA applying the rules of the RFS in a fair and timely manner that does not discriminate against sorghum farmers and its end users.

* Oil and Gas Public Hearing: On July 10, 2017, OAR will hold a public hearing on the Agency's proposed 3-month and 2-year stays for the Oil and Gas New Source Performance Standards and Emission Guidelines. The shorter proposed stays would fill any potential gap between the Administrative stay currently in place and the 2-year stay. The hearing will be held from 9:00 am – 4:00 pm in the EPA East Building. Over 100 speakers have already registered to speak.

Subject: media question
I sent this email yesterday to Julia and Enesta but forgot to include you.
I am working on an article for next week's magazine on what EPA could be thinking in re-proposing the Clean Power Plan as part of its review of the regulation.
It's a widely held belief among stakeholders in DC that the agency will redo the CPP using just the original building block 1, heat-rate improvements at coal plants, as a means of compliance.
First, can you say anything about the heat-rate improvement idea being the course EPA will take? And second, can you outline where we are in the process of review to re-propose the rule, and when a new proposed CPP is due for release?
My deadline is Wednesday at Noon.

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Ryan, Mandy,

We have Nick Bridge, the Foreign Sec's Special Representative <https://www.gov.uk/government/people/nick-bridge> , and Pete Betts, the UK's Director for International Energy and Climate, in the US next week (20th and 21st). Nick is a new appointment, previously the UK's ambassador to the OECD, and this is his first senior visit to the US.

They have a helpful overview of the UK's position and would be excellent contacts for the EPA. I suspect a meeting with the Administrator may be a push at this notice. They've very keen to meet senior advisors in the EPA to develop an understanding of the Administrator's direction on environmental protection, energy and climate issues.

I think you both met Archie Young, who works for Pete, in the margins of the G7 Environment Ministerial. I know Archie thought you would be good contacts for them to meet. It would be helpfully timed ahead of any potential visit from the Administrator to the UK.

Please let me know if you are available on Thursday or Friday next week. Mandy, I know we can't meet until the week after, but any time you can make would be welcome.

Thanks,

Alex

Thank you for the introduction and welcome. The Plastics Industry Association (PLASTICS) and members of its EHS+ Committee are very much looking forward to meeting with members of EPA's Office of Policy team. This is particularly timely given last Thursday's release of the Unified Agenda.

Implementation of the amended TSCA remains a key issue, and a key theme is EPA resources. Below is a list of other important issues for our members (neither all-inclusive nor prioritized) that will also be discussed

AMERICAN OVERSIGHT

with additional Agency offices. We'd like to focus on specific actions EPA could take that would be most helpful to our industry and that would not require changes to regulations, as well as discuss how we might address challenges that may require regulatory changes with notice and comment.

Chemical Substances

- Implementation of the amended TSCA

- TRI reporting

Air

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities

- Revisiting concepts of flexible air permitting, netting and debottlenecking, reporting frequency

- Leak detection and repair monitoring requirements for connectors

- "Once in, Always in" Policy for MACT standards

- Routine maintenance repair and replacement under NSR

- Commencing construction and beginning actual construction under NSR

- Project aggregation rulemaking (PSD and NSR)

- Air quality modeling analysis and monitoring requirements

Water

- Ways to streamline permitting processes to help compliance assistance and reduce burdens for both regulated entities and permitting authorities

- Pelletized and solid resins and wax under the SPCC component of EPA's oil spill prevention program

AMERICAN OVERSIGHT

- Synthetic Organic Chemical Manufacturing Industry (SOCMI) wastewater proposal of 1994, amended in 2004

Waste

- Petition for review of the Hazardous Waste Generators Improvements Rule, and potential options

- CERCLA Superfund challenges to advancing rehabilitation

I reached out to Mr. Schuette to give me your contact information because I wanted to keep Mr. Pruitt's office in the loop regarding op eds in the Washington Times. The Times will be running a section on energy. When they have asked me to submit an op-ed on the topic of ethanol, they mentioned that they would also be publishing an op-ed from Mr. Pruitt.

Attached is what I have submitted. I suspect that my views are in line with those of Mr. Pruitt, but I wanted to provide him an opportunity to comment on what I wrote. Any comments or suggestions that his office has would be welcome.

Mandy – I am writing to confirm a meeting with you and Utility Air Regulatory Group representatives for next Thursday, July 27, at 3:00 pm to discuss the Mercury and Air Toxics Standard. UARG will be represented by Makram Jaber (H&W), Andrew Knudsen (H&W), Mikes Gears (Duke Energy) and Justin Walters (Southern Co.). Makram and Andrew are counsel to the UARG HAPs Committee. Mike and Justin are co-chairs of the UARG HAPs Committee. I also may attend. The purpose of the meeting is not to talk about the pending litigation. We are interested in talking about the rule itself.

Please feel free to contact me if you have questions or need any additional information. Thanks.

EPA Contact: For an escort from Security to the meeting call (b) (b) (b) or (b) (6)

Request:

Follow up on Erik's inquiry asking us to reiterate TTMA's request for a meeting with EPA on its petitions to the Agency for reconsideration of the trailer GHG rule and an administrative stay under the APA or Clean Air Act.

Discuss EPA's path forward, as the industry faces a compliance date of January 1, 2018, which requires both immediate investments to achieve compliance and will cause customers to shift business away from large manufacturers who are subject to compliance obligations and toward small volume manufacturers who have exemptions. This is creating tremendous pressure on TTMA members to do something to address compliance obligations with a rule that they believe is both unlawful and contrary to the current Administration's policy.

AMERICAN OVERSIGHT

Although TTMA is concerned about the government's request for a 30-day extension to the abeyance of the pending litigation because that will defer the process to obtain relief from its current situation, we are amenable to (b) (5) [redacted]
